## Germany Must Pay \$5,000,000,000 In Cash Before May 1, 1921

### Must Also Issue Immediately to Allied and Associated Governments \$20,- 000,000,000 in Interest Bearing Bonds, by Terms of the Peace Treaty

PARIS, April 11. (By the Associated Press.)—Germany, under the peace treaty, must pay \$5,000,000,000 in cash or the equivalent in commodities before May 1, 1921. She must also issue immediately to the allied and associated governments \$20,000,000,000 of interest bearing bonds.

The interest on the bonds until 1926 will be either two or three per cent and after that date, will be 5 per cent, according to the present plan.

The bonds will be payable in installments during a period of 15 years. They will probably be kept in the control of a central commission of the allied and associated governments so that they shall not be marketed in quantities sufficient to break the price.

Germany must also obligate herself to pay other amounts for damages done, appropriate to her means, to be determined by a mixed commission of representatives of the allied and associated governments and of Germany, which shall report before May 1, 1921.

## Trotsky Admits Defeat in East

LONDON, April 11.—Leon Trotsky, Bolshevik minister of war and marine, admits defeat on the eastern front, in a wireless message from Moscow which has been picked up here. It reads:

"All our efforts must now be directed to the eastern front, which is the only front upon which we have suffered defeat. We must send old and experienced troops to that quarter. It is absolutely necessary for us to capture Ekaterinburg, Perm and Ufa."

Supreme Court Decision on  
Reed Amendment—Up to  
States To Force Law

WASHINGTON, April 14.—Transportation of intoxicating liquors for beverage purposes through a dry state is not prohibited under the Reed prohibition amendment, the supreme court held today in an opinion interpreting that act.

The treasury department, it is stated, has not and will not make any representation to President Wilson concerning possible means of postponing the effectiveness of prohibition.

Up to State Officials

NEW YORK, April 14.—State officials will be charged, under their own laws, with enforcement of the wartime prohibition act, according to William H. Anderson, state superintendent of the Anti-Saloon league, who spoke at the New York East conference of the Methodist Episcopal church, in Brooklyn today.

He disagreed with Commissioner Roper's announcement, that his department was without authority to enforce wartime prohibition.

### MANY LOWELL PEOPLE GO TO DEVENS

Lowell people were abundantly represented at Camp Devens yesterday among the thousands of visitors who stormed the cantonment to be with the boys of the returned 26th Division.

Although a large number of the Lowell men had been granted passes to come home yesterday, there were many others who had previously had this pleasure and were obliged to stay in camp over the Sabbath. The result was an influx of Lowell relatives and friends that gave an even greater "Lowell touch" to the camp than was in evidence the preceding Sunday.

Battery F, Co. M., and other 101st units and the Lowell companies of the 104th Regiment all had their share of Lowell visitors and the various barracks of the Lowell men were well filled with paper and coverings from food that "mother had cooked" for the overseas man who is so near and yet so far from home.

The auto was the favorite mode of travel and from early forenoon until late in the afternoon the roads between here and Ayer were almost congested with machines.

The Lowell boys at the camp were looking forward to the big reception to be given them here next Saturday. Patriots' day and many were the questions they asked as to what the nature of their entertainment is to be.

An added attraction at the camp yesterday which proved a great aid to Lowell people as well as those from other places was the information bureau which has been opened by the state committee for welcoming home soldiers and sailors in the 101st Infantry area to the right of the main road. This bureau supplies information regarding the location of any unit of the 26th Division now at Camp Devens and assisted many people yesterday in locating the soldier boy they were looking for.

Here in Lowell it was really the first "overseas Sunday" that the city has enjoyed. Tanned men with three gold stripes on their left sleeve were everywhere in evidence, more so than at any other one time.

## BEEN ECONOMIZING IN CLOTHES?

Adopted the patriotic, economical idea last winter? Well, the war's over! It's time now that you got a new suit and a mighty good suit. That's the best economy. Cheap clothes don't pay.

As good clothes as you can afford will give you the most value for your money in faithful service as well as in the pleasure you will feel in being truly "dressed up." Get a new suit, a becoming suit, an extra fine suit. Merrimack suits are fresh, bright, up to the minute. You'll be exceedingly well dressed the moment you dress up in Merrimack clothes.

Dress up for Easter.

### WILSON MEETS ITALIAN LEADERS

PARIS, April 14.—President Wilson had a long conference today with Premier Orlando and other Italian leaders on the Adriatic problem, one of the last vital questions remaining to be discussed by the council of four. The council did not meet in the morning.

Premier Orlando recently suggested to the president the advisability of informal exchanges over the question of Fiume and Italy's claims in the eastern Adriatic.

PARIS, Sunday, April 13 (By the Associated Press).—The Rhine frontier is the chief obstacle now remaining to a speedy agreement on peace by the council of four.

## SOLDIER CELEBRATION

### Autos Wanted To Bring Soldiers From Camp Dev- ens on Patriots Day

Plans are progressing rapidly for the celebration for the Lowell men of the 26th Division to be held here next Saturday. Mayor Thompson held a conference with the theatre managers of the city at city hall today and they agreed to do whatever the mayor requested in the matter of entertaining the boys. Specific plans will be announced later in the week.

One of the ways in which the general public can assist the city officials in making the day a big one for the boys is to provide 100 automobiles to bring the 400 soldiers to Lowell that are now quartered with the Yankee Division at Lowell. People who have cars which they are willing to have drafted into service that day should call 335 and give their names, make of car, etc.

The celebration is as vaguely outlined at the present time as to be as follows: A fleet of machines will leave Lowell for Devens in time to bring back the soldiers to the South common by 11 o'clock at the latest. From 11 to 12 brief ceremonies will be held on the common, the only speech-making to be an address of welcome by Mayor Thompson. Lieut. Col. Charles A. Stevens will be in charge of all military arrangements both at the cantonment and on the common. A band concert will begin at 10 a. m. and continue until noon. The Red Cross will have a lantern tent on the common from which food will be served to any of the 26th men in hunger.

The rest of the day will be given over wholly to the men themselves to do what they please. Present plans call for arming them with theatre and restaurant tickets and more details will be available later in the week. Every effort will be made to have the affair as informal as possible.

### MAKING THE MERRIMACK RIVER NAVIGABLE

One more step in the long journey toward the consummation of the project for making the Merrimack river navigable from Lowell to the sea will be taken tomorrow morning, when a delegation from the legislative rivers and harbors committee will come here under the auspices of the board of trade and inspect Lowell, Lawrence, Haverhill and Newburyport.

The delegation will be met at the Middlesex street station and included in the committee of welcome will be Congressman John Jacob Rogers, who has been heartily interested in the project for some time. An effort will be made to point out the advantages which Lowell as a manufacturing city would derive if the Merrimack were made navigable.

The board of trade's committee on waterways has, in co-operation with the commercial organizations of other Merrimack valley cities, placed before the legislature once more the bill calling on the commonwealth for participation in the cost of the project, the state to pay half and the nation half for the development. At the best, the work of construction cannot start before 1921.

## FORD MOTOR COMPANY MAY LOCATE HERE

There is still a possibility of the Ford Motor Co. locating in Lowell, according to a letter received this morning by Secretary John J. O'Rourke of the board of trade, in which it is stated that definite plans involving the need of new facilities have not yet matured, but that a letter sent by the board of trade has been filed for reference.

The letter sent recently by the board to the Ford people was as follows:

Dear Sir: It has become somewhat of a permanent rumor that you are contemplating locating a branch factory in the west. The Lowell board of trade respectfully invites your consideration of the facilities for manufacturing in Lowell, Massachusetts.

Lowell is a city of 125,000 people, with a suburban population of about 50,000 more.

The favorable form of investment of the working people is in owning their homes and this city has been unusually free from serious labor troubles.

Lowell has seven savings banks and three co-operative banks and large deposits of the banks are loaned to the operators who are paying for their homes.

Lowell is cosmopolitan and we have a large group of French, French-Canadian and Portuguese residents, who have established their churches and schools of the facilities for manufacturing in Lowell, Massachusetts.

This city is absolutely free from any serious labor troubles and the city is noted for the reasonable contentment of labor.

Lowell is the home of the United States Cartridge company, which employs over 10,000 men during the past three years in making small arm ammunition.

The Boston & Maine railroad is now completing a \$1,000,000 freight yard, which will be of inestimable value to the shippers of this community. The Boston & Maine railroad has also built within the past five years six repair shops to the value of approximately \$2,000,000 at Billerica, a suburb of Lowell.

Lowell is the making point on the Boston & Maine and New York, New Haven & Hartford railroads, having direct passenger and freight connections with the cities of Boston, Fall River, New York, Montreal, Buffalo and other points west.

We have at the present time a modern manufacturing plant covering 100,000 square feet of space, which was formerly used by the Rice-Lowell-Hartford Carpet company. This plant has a water power of 1,000 h. p. We have also a large excellent site on the banks of the Merrimack and Concord rivers, which would be desirable for manufacturing purposes.

## Both Sides Perfect Plans For Phone Strike Set For Tomorrow

### Company Officials Appeal to "Loyalty of Employees"—Workers Plan To Place Pickets at Railroad Stations —Report Outside Help To Be Called

BOSTON, April 13.—Preparations for meeting the strike of telephone operators called for 7 o'clock tomorrow morning were continued today by officials of the New England Telephone & Telegraph Co. and the Providence Telephone Co. At the same time, union leaders were perfecting their plans to make the strike effective and for picketing activities.

Notices signed by President Matt B. Jones of the telephone company calling upon the operators "in the name of your loyalty to the service and to our government" to remain at their posts of duty, appeared upon the bulletin boards in all the exchanges today. Reports that outside help might be called upon in an effort to maintain service, led the strike leaders, headed by Miss Julia S. O'Connor, to prepare to meet a possible move in this direction by stationing pickets at railroad terminals.

No Word from Burleson  
No new word had come from Postmaster General Burleson early today, according to union leaders and so far as was made known, no conferences continued to Page Eleven

## "VICTORY FLEET" RETURNS HOME

### Greatest Assemblage of War Craft Ever Seen in Ameri- can Port Now at New York

### Will Give 30,000 Sailors and Marines a Vacation on Home Shores

NEW YORK, April 14.—The Atlantic fleet, comprising in ships and tonnage the greater part of the "victory armada," ordered here to give 30,000 sailors and marines a vacation on home shores, steamed into New York harbor today. With its arrival, the greatest assemblage of war craft ever seen in an American port—163 vessels—rode at anchor in the North river, and almost immediately launches started shoreward with the first contingent of officers and men on leave.

Preceded by a flotilla of 50 destroyers, 17 superdestroyers entered the harbor channel shortly before noon. The Mississippi, Oklahoma and Wyoming, leading and close in their wake the Pennsylvania, flying the flag of Admiral Mayo, commander of the fleet, and ranking officer of the units assembled here from two oceans.

As the fleet came into port, it was met by squadrons of naval airplanes, their wings flashing in the brilliant sunshine, their engines humming a musical greeting as they looped and swooped above the slowly steaming water craft.

Scores of U-boat attacks  
Crowds of some of the destroyers had been in the war zone almost continuously since the first contingent of anti-submarine craft went abroad in the spring of 1917. Several of the destroyers have one or more submarines in their credit. One of them, the U.S.S. Cusick, bears the scars of an attack by a submarine and another, the U.S.S. Maah, still shows the effects of exploding depth bombs which went off when she collided with another boat in the war zone.

The destroyers included the McKean, McKee, Robinson, Fairfax, Mahan, Haddock, Taylor, Champlin, Chew, Brewster, Montgomery, Gamble, Bannay, Lamberton, Buchanan, Elliott, Bennett, Ward, Mustard, Brush, Foxworth, Jenkins, Ammen, Beale, Burroughs, Terry, Harding, Thatcher, Walker, Crosby, Bowers, Brackenridge, Bates, Bonham, Calhoun, Winslow, Erickson, McBratney, Cummings, Wainwright, Roxton, Craven, Stockton, Keady and Polk.

Following the destroyers were the cruiser Columbia and the torpedo boat tender Melville.

## ARREST TEXTILE STRIKE LEADER

### Taken Into Custody During Demonstration in Law- rence This Morning

### Many Pickets Out—5000 in Demonstration—Investiga- tion by State Board

LAWRENCE, Apr. 14.—Samuel Bramhall, chairman of the committee in charge of the textile strike here, was arrested today during a demonstration in the mill district, charged with interfering with a police officer. Members of the state board of conciliation and arbitration were to arrive during the forenoon to begin an investigation and the strikers made every effort to get a large number of pickets out as an indication of their strength. As a result, several thousand men and women walked up and down the streets displaying cards with the legend: "15-51," indicative of their demand for 51 hours' pay for 48 hours' work.

Mrs. Glendower Evans of Brookline, a stockholder in the Arlington mills, who had previously shown her sympathy with the movement, mingled with the pickets today, wearing the strike card on her sleeve. A policeman in plain clothes was keeping close behind her as she walked up and down the sidewalk and it is charged that Bramhall questioned his right to follow her. After some words, another officer arrested Bramhall.

Persons who witnessed the demonstration this morning estimated that between five and six thousand participated. Many, according to the police, were not mill workers and some, they said, were not residents of Lawrence.

Today marked the opening of the 11th week of the strike. With one exception, all of the mills against which it is directed are operating although forces are considerably reduced in some departments.

The investigation by the state board to determine the cause of the strike and the responsibility for its continuance was ordered by Governor Coolidge after the manufacturers had declined to submit the differences to arbitration. The strikers had announced their willingness to arbitrate and proposed Henry B. Endicott, formerly executive manager of the state public safety committee, as mediator.

In opening the hearing the board announced that members of the general strike committee would first be heard and some of the strikers not members of the committee might also be heard. Later it was planned to take the testimony of mill men. Several representatives of the manufacturers were among the 1200 persons who crowded into the city hall for the hearing.

## APPEAL FOR KOREA

800 Delegates in Convention  
at Philadelphia To Aid  
Independence Movement

PHILADELPHIA, April 14.—Eight hundred delegates, including several women, and representing the 2,000,000 Koreans outside Korea, assembled in congress here today. Their mission is to assist the independence movement in Korea and secure freedom from Japanese rule.

"The facts of Japanese oppression of Korea," said Dr. Suyeman Hlee, secretary of state of the Korean provisional government in Manchuria, who is a delegate to the congress, "are not known to the American people. America for her own sake, as well as for the sake of the peace of the world and the principle of justice to strong and weak alike, for which she fought the war, should know the kind of ally she has in Japan. The Korean congress will do a great service to America by publishing the truth about Japan, whose clever publicity bureau on which millions are spent a year, has camouflaged the imperialistic ambitions and underhand diplomacy employed by the Prussia of Asia."

"We hope the American public will take advantage of these sessions to be present at our meetings. Eighteen million people, of whom two million are Christian, including all the enlightened and influential among Koreans, aspire to establish a Christian democracy in Asia. American Christian missionaries have been our teachers, and some of them, unknown to the American public, are suffering jail with their flocks, whose sufferings can no longer be concealed. The struggle is on until Korea is free or the last Korean dead. "Will America help us?"

## NEWS OF THE DAY IN POLICE COURT

Phileas P. St. Francis of Nashua, N. H., was arraigned in police court today on a complaint charging him with operating an automobile while under the influence of liquor, and on a second complaint of drunkenness. A continuance was granted until April 22.

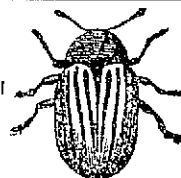

Charley Kazeckewicz was charged with assault and battery on his wife. He was found guilty and given a suspended sentence of a month in jail, from which he appealed.

Joseph S. Stowell was found guilty of non-support of his wife, and with the understanding that he will become a regular contributor through the probation officer to her support from now on, the case was placed on the files of the court.

Several offenders charged with drunkenness drew down small fines, and in some cases were given a few weeks in the house in which to rest up. The probation officer released 16 first offenders.

### SUPERIOR COURT.

The case of Julius Cahn of New York vs. Deputy Sheriff Bernard F. Gately of this city, an action of tort for the conversion of the Lowell Opera House property, through which Cahn seeks to recover \$10,000, was continued in the superior court, civil session, at the court house in Goshen street this morning. Mr. Cahn, Frank Groves, treasurer of the Washington Savings bank, and Erson E. Farlow, county commissioner, were called as witnesses this morning. The case will not go to the jury before Wednesday or Thursday.

## LOWELL SOLDIER DIES AT CAMP DEVENS

Priv. Joseph Blanchard, Jr., son of Mr. and Mrs. Joseph Blanchard, of 49 Hurd street, this city, died yesterday afternoon at the base hospital at Camp Devens as a result of pneumonia, which the young soldier contracted aboard the U.S.S. Agamemnon, a couple of days before the ship anchored at

PRIV. JOSEPH BLANCHARD, JR.

Boston. It was not believed the illness would prove serious at first, but owing to the soldier's weak condition, due to gas poisoning sustained in the trenches of France, he was unable to combat the disease.

Mr. and Mrs. Blanchard, who only a short time ago received a card from their son, dated aboard the U.S.S. Agamemnon, to the effect that he was in the best of health and would be home soon, received a telegram from military authorities at Camp Devens Tuesday night, requesting them to go to Devens at once as their son was seriously ill. A couple of hours later the parents were at the bedside of their son and one of them remained constantly with the sick soldier until the end came yesterday.

Priv. Blanchard, who was but 19 years of age, was born at Burlington, Vt. At the age of 17 he enlisted with

the National Guard at Burlington and a short time later he joined the regular service. He received his first training at Fort Ethan Allen and Newport News, Va. and in October, 1917 he sailed for France with the Supply company of the 162d U. S. Infantry. While "over there" he took part with his regiment in many of the fierce battles, but was lucky enough to escape injury. A short time before the armistice was signed he was gassed, and although it seemed that he had fully recovered from the poison, his system was left in a very weak condition. A few weeks ago his parents received a letter from their son, announcing them that he would soon sail for the states, and they looked forward with fond anticipation to his arrival.

Deceased was well liked in his regiment. He was ever ready to lend a helping hand and his knowledge of the French language proved a great benefit to his many friends and associates in the army. He was of a cheerful disposition and possessed of a pleasing character, which made him a favorite among his superior officers and mates. The news of his death will be a sad blow to all who knew him. Besides his father and mother, deceased is survived by a brother, George. The body will be brought to this city and will be buried with military honors.

### Insist on Guarantees

Continued  
Council of Four. It is expected that this will be the main subject before the council this week, with the French making a determined stand for guarantees which will give them adequate military security against renewed German aggression.

Wilson to Go to Versailles  
The summoning of the George Washington by President Wilson led to the belief that his departure was imminent, but intimate friends now say that the progress which has been realized will permit him to remain and take part in the congress at Versailles when German plenipotentiaries take part.

There appear to be strange and divergent views concerning the status of the amendments to the League of

Nations covenant. Leon Bourgeois, the French member of the commission on the League of Nations, took the view after Thursday's meeting that the Monroe Doctrine amendment had not been adopted, and the semi-official Temps stated last night that the American amendment incorporating the Monroe Doctrine into the covenant was further examined on Friday, but no decision has as yet been reached.

### Stormy Session on Monroe Doctrine

There is no doubt that the final session which discussed the Monroe Doctrine was at times stormy. French opposition to the Monroe Doctrine amendment was long and spirited and was based on the ground that it singled out one nation for special treatment and also that the principle of the Monroe Doctrine if applied to Europe, might keep the United States from again aiding France, if she were menaced by another German attack.

### Wilson Forced Decision

To President Wilson's physical endurance, despite his recent illness, is credited the getting of the league covenant through its final stages. When the debate dragged beyond midnight on Friday, Lord Robert Cecil asked Col. House: "How long is this going to last?" Col. House consulted Mr. Wilson and immediately replied: "It is going to last until daylight, if necessary, to adopt this covenant. When this became known, opposition subsided and the session was soon concluded. Col. House said afterward: "In a prolonged contest it is the last 15 minutes which count."

### FINAL STAGE OF NEGOTIATION

PARIS, Sunday, April 13 (By the Associated Press).—The peace treaty and the League of Nations have undoubtedly reached the final stage of nego-

tion, but it is not yet clear that they are out of troubled waters, as both must pass the ordeal of a plenary session of the peace conference and then go before the Versailles congress where enemy powers will be represented. Judications are that a combination of both documents will be written into a preliminary peace treaty within the coming two weeks. The Germans then will be called in and the present peace "conference" will be merged into the peace "congress."

The Council of Four is understood to have fixed for the peace congress tentative dates between April 26 and May 5, but no announcement has been made as to details so that Premier Lloyd George may have something to disclose when he addresses the British parliament next Wednesday.

### MAIN ITEMS OF PEACE SETTLED

LONDON, Sunday, April 13.—(British wireless service).—The main items of peace with Germany have been substantially agreed upon by the Council of Four, the Paris correspondent of the Sunday Observer says he understands. The only problem which the council has not yet approached is that of the Bohemian border, he says. This problem, he points out, is an intricate one, as it raises the question as to whether a considerable number of Germans must be included in the Czechoslovak state.

"As for the other points concerning the German borders," continues the correspondent, "it seems that it only remains now to decide upon some minor questions."

As for the Sarre valley, the correspondent says he understands that President Wilson has definitely agreed to the proposal originated by Premier Lloyd George which essentially con-

sists in giving France ownership of the coal mines while making the Sarre district a neutral state under the guarantee of the League of Nations. The questions of reparation and of disarmament in the Rhine region, he says, seem also to have been more or less settled in their broad outlines.

On the subject of the western border of Germany, the correspondent states he has it on good authority that Premier Clemenceau's main object has been from the first day of the conference to pave the way to a settlement that "should be entirely based on that idea of right which since 1870 has been embodied in Alsace-Lorraine" and that the settlement of the Czechoslovak question should be entirely acceptable to the English-speaking democracies.

### RELEASED FROM NAVY

Edward F. Woodward of this city, for the past 15 months an ensign in the U. S. navy, and for the greater part of the time engaged in convoy service, has received his release from the navy and has returned to his home. He is connected with his father, Chas. N. Woodward, local manager for Bright, Sears Co.

### BOARD OF TRADE MEETINGS

Among the meetings scheduled for this week by the board of trade are the following: City beautiful committee, Monday, 5 p. m.; hardware dealers, Tuesday, 1:30 p. m.; Americanization meeting, high school hall, Thursday, 4:30 p. m.; address by Mary S. Mugen of Fall River. Everybody interested in Americanization is invited to attend this latter meeting.

### PORTABLE SCHOOL

The new portable school adjacent to the Washington grammar school will be turned over to the school department Wednesday morning. Commissioner Marchand of the public property department announced today

## Workers and Strike Pickets Clash

NEW YORK, April 11.—Several hundred workers and strike pickets at the factory of the Fur Trading Co., in Brooklyn, engaged in a fight today in which a number of persons were injured and windows in the building broken before the rioters were dispersed by the police. The strikers quit work last week, after demanding higher wages and shorter hours.

## Ukrainians Bombard Lemberg

COPENHAGEN, April 14.—Ukrainian forces heavily bombarded Lemberg on Thursday and Friday, many persons being killed and wounded, according to a despatch received here.

## To Start Transatlantic Air Service

LONDON, April 14.—Vickers, Ltd., are about to start a transatlantic air service with airships which the company was building for the British navy when the armistice was signed and which are no longer needed, the Pall Mall Gazette says. The passenger rate will be £48 and mail will be carried at the rate of £105 a ton.

The pioneer ship will have a gas capacity of 1,200,000 cubic feet and engines of 1000 horse power. Larger ships are being built to carry 200 passengers.

## BELGIAN SOLDIERS HERE FOR LOAN PARADE

NEW YORK, April 14.—The French liner Rochambeau and the American transport Floridan, arrived today with 2461 troops. On the Rochambeau were seven officers and 198 men from the Belgian army, who come to participate in the victory loan campaign.

### A SURPRISE PARTY

Frank A. Brooks, recently discharged from the 50th Division, Old Hickory, was given a surprise party at the home of his parents, Mr. and Mrs. Fred Brooks, 870 Lakeview avenue, on Sat-

urday night. A gift of a gold watch and chain was given by his parents and friends. The evening was one of real pleasure, both for the returned soldier and his acquaintances. His two brothers, Joseph and James W. Brooks, are with U. S. forces in Panama.

LOWELL'S MORTALITY RATE  
Lowell was in second place among the large cities of the country in her mortality rate for the week ending April 5, according to figures received at the board of health office today. Fall River was in the lead with 12, Lowell, 21.3, Milwaukee, 22.7 and Worcester, 23.1. New Orleans was lowest with 3.1. The average was 12.2.

## Letters From Lowell Soldiers

Mr. and Mrs. Cornelius F. Calman of 84 Forrest street have received the following interesting letter from their son, Charles T. Calman, who is a lieutenant on one of Uncle Sam's torpedo destroyers:

London, March 3, 1919.

Dear Mother: I am here in London. You know I wrote and told you about them asking for volunteers to take the German submarines back to the United States. Well, I with 110 others, gave in my name but only 19 were chosen. I thought I was lucky to get this

CHARLES T. CALMAN

chance to come home. We expect to reach New York April 21. I had quite a time in Ireland before I left. The Sunday before we left my chum and I got liberty to go to Cork and also Blarney, where the famous Blarney stone is. We caught a train-way to Killybegs, then to the castle. I wish you could see the beautiful country around here. I have taken pictures of all these places with their green hills and sheep and cows grazing. We got to Blarney at 3 o'clock and went to the castle and kissed the stone. I never thought I would have the chance. It is some job, I tell you. We had to lie on our backs while two good husky Australian soldiers, who were on the same grand as ourselves, held our feet while we kissed the stone.

## SUN BREVITIES

Best printing, Tobin's, Associate bldg. Fire and liability insurance, Daniel J. O'Brien, Wyman's Exchange. Sergt. Harold W. Dows of 107 Warwick street, after 10 months of overseas service with the 602d Engineers of the 76th division, has returned to New York as a casual and expects to be transferred to Camp Devens shortly.

Commissioner George E. Marchand of the public property department has named William H. Cox boss painter of the department following a civil service examination.

First Lieutenant Benjamin J. Maloney, discharging officer at Camp Merritt, N. J., has returned to his home in Lowell, and will soon take up his practice again as one of the members of the bar. Lieut. Maloney was in the service 15 months.

Two Lowell men were forwarded to Boston today by Chief Cary of the local naval recruiting station. They were Starr S. Morrill, 731 School street, apprentice seaman and George Jellison, 85 Kinsman street, apprentice seaman.

Joseph Corand, who resides in Clark's yard off Davidson street, received a compound fracture of the right leg this morning while at work

When you look down you have to grasp two bars. If you fall you would go some distance but it was worth the risk. We shipped two pieces off the stone which I will bring home so you can see the old Blarney.

I have also been to Doughty's Black-pence on the tramway; they charge two pence from Doughty's to Cork and seven pence from Blarney back to Cork. I have had a great time and it will perhaps never come again. I am leaving Ireland we went through Dublin, Kingstown and over to Liverpool, right along to London. When we reached here we were pretty tired but the government is paying our way at this hotel and we can get up any time in the morning so you see it is not so bad. We happened to strike London the day before Princess Patricia was married. We saw her at a range of five feet. Also the royal family and all the nobility. We caused the ire of three Englishmen who thought we had no right to get a better place to see the nobles than they, but we only laughed at them. They told us we ought to be home with the rest of the tank.

The next day we visited with a touring party at St. Paul's cathedral, London tower, London bridge, house of parliament and the court chambers. We saw the court in session with the judge, the jury and the accused. We also visited the old custom. In London tower I saw the royal jewels, crowns, swords and plates and two of the most interesting things in the world. They are enclosed in a large cabinet with glass and iron bars to protect them. The men stationed in the tower are the only men who have been 50 years in the English army, and it is a reward for faithful service in giving them the care of the tower. Westminster abbey is filled with statues and panels. St. Paul's tower is 660 feet high and 112 feet in diameter. It is the tallest building in the world. We also visited Dickens' curiosity shop with its ancient books and souvenirs. Then we went through a museum filled with trophies captured from the Germans. We noticed a man in the lobby of the theatre. I thought he was an American and we found out he had a nephew in our service whom we knew. He was very glad to see us. It seemed a treat to meet a genuine American.

We were on the spot where President Wilson was arrested when he came to London. All the big shows are playing here and we have seen many of them. The Eagle had furnished tickets to the soldiers and sailors at half price. We had fine floor seats. In one place the leading man was an American as well as the leading lady. I am determined for a German submarine. If nothing happens, we will be in New York by April 21 and the plan is to go to Boston, the Liberty loan, hoping to see you and dad and all the family soon. I remain, Your loving son, CHARLES T. CALMAN.

There were two telephone alarms this forenoon, one at 9:50 o'clock for a grass fire in the rear of the Waterhead mills in Lawrence street and the other at 10:15 o'clock for a brush fire in Sanders avenue. No damage.

The license commissioners resumed their annual tour of the first and fourth class licensed places as well as the licensed clubs this morning and in the course of the forenoon they visited premises in Belydore, Centralville, Moxey street and the city hall district. This afternoon they inspected places in Market street.

PLUMBING INSPECTOR Charles N. Midwood, recently appointed a plumbing inspector by Mayor Thompson, assumed his new duties today.

## THOUSANDS OF GREEKS DIE OF STARVATION

WASHINGTON, April 14.—Thousands of Greeks deported from Macedonia during the Bulgarian occupation, have died from starvation and mistreatment and survivors are in a desperate condition from disease and lack of food, says a report received here by the American Red Cross from Athens.

"Survivors are arriving in droves at the American Red Cross relief stations," the report says, "after having been without food for days. Women walk into the stations with dead babies in their arms. Young girls devoid of sense by the treatment they have received and children who are but living skeletons are seen on every hand."

As an example of the "destruction" of the Greek population of Macedonia, the report states that of one group of 6000 men, women and children deported only 1475 were counted upon arrival at one of the relief stations.

Bulgars Fire on Greeks SALONIKI, Sunday, April 13.—Greeks engaged in demonstrations near the city of Strumitza have been fired upon by Bulgarian police, according to reports reaching this city. Many Greeks have been arrested and 20 have been sent in irons to Sofia, it is said.

## STANDARD OIL CO. GETS CONTRACT

The Standard Oil Co. has been awarded a contract to supply the city of Lowell 140,000 gallons of road oil, from 55 to 65 per cent. asphaltic, for the present season. The cost is to be 1.55 cents per gallon for 45 per cent. asphaltic and 8.25 cents per gallon for the 55 per cent. grade. Another firm has sent in a slightly lower bid on the contract, but owing to its failure to accompany the bid with specifications regarding delivery as favorable as those of the Standard Oil Co., the contract was given to the latter firm.

## Did You Ever Steal a Suit?

Yes, did you when you were young and you wanted to make an impression on the girls of your choice? Bill was seventeen and was terribly in love with Lola Pratt. Bill was seventeen and suffered the overwhelming burden of self-imposed duty which is common at the advanced age of seventeen. Such, he was in love with Lola, whose chief charms laid in a velvety pair of eyes, baby talk and her pup Floppin. Well, Bill was nearly driven to suicide, but one of his discarded girls stepped into the breach, saved his life and "a new love for the old love" took place of the "old love." I'm mixed up myself, but never mind. JACK PICKFORD in "ADVENTURE" and live over your youth when romance purpled all your dreams. ## TRANSATLANTIC FLYERS ARE IMPATIENT

ST. JOHNS, N.F., April 14.—Harry G. Hawker and Lieut. Commander Grieve, the Sopwith biplane team, went to the airfield today and in view of adverse conditions intimated that the start of the transatlantic flight for the next few hours at least, was doubtful. Although the rain had stopped, the ground was still soft and the hangars were enveloped in a dense fog. Both flyers expressed impatience at their enforced delay.

Meanwhile Capt. Raynham and Max Morgan, other contenders for the London Daily Mail's \$50,000 prize for an over-the-ocean flight, announced that they might make a trial trip tomorrow. All night long their mechanics had been working to assemble the Raynham plane.

If Hawker is delayed two days longer the prospect of a race between the rival pilots on even terms may become a reality.

CORP. LOWE HONORED Corp. George Lowe, recently returned from 15 months' service "over there," was the guest of honor at a reception given at the home of his sister, Mrs. George Hovey, 233 Appleton street, last evening. Corp. Lowe was a member of Co. M 101st Infantry, and previous to going over there to lick the Kaiser saw considerable service on the Mexican border. Although in action on several fronts he came back without a scratch, and is in the pink of condition. During the evening a pleasing musical program was given by some of his friends and acquaintances who had turned out to honor the returned soldier, and refreshments were served by the young women present. He was presented a handsome ring by his sister, Mrs. Archie LeBaron, and was given a watch by Mrs. Mollie Lee. The entertainment consisted of the following numbers: Mrs. Bessie McManus, songs; Estelle Crowley, piano selection; Mr. W. Williams, violin selection; Miss Moran, piano selection; Miss Mary Hunt, piano selections, and Corp. McCuskey, songs. Among the out of town guests present were Miss Jessie Neil and Miss Edna Chilton of Newburyport.

## ADVERTISING GETS GOOD WILL

The merchant who intends to succeed probably ought to bear in mind that his future in the community depends on the impression he can create among buyers as to himself, his store and his way of doing business.

Can he convince the buyers that he is honest and that he can always afford to be honest? Can he convince them that he sells a good article at a fair price and that he is a shrewd buyer? Can he convince them that he manipulates his stock in trade so as to turn it over many times in a year, making a fair profit each time? Can he convince them that his courtesy constantly prevails at his store and that all customers are treated fairly and alike?

If he can do these things he has created the impression of good will which is one form of advertising.

But we must go a little deeper into this thing. To create this impression of good will towards a store—this faith and conviction in it—is not necessary to get people to come to the store.

It is newspaper advertising that does this. A store must put the kind of an ad in the evening paper that will impress the buyers that money can be saved by buying at this store. The ad must convince buyers that besides being able to save them money, it is up to the minute on price and quality, styles and novelties. The right medium to get good will for a store—and to keep it—in Lowell is

## GOVERNMENT OWNERSHIP

Chairman Hurley of the shipping board, has the credit of devising a feasible plan for getting the United States government out of the shipping business so far as the merchant marine is concerned. It appears that his plan for the sale of merchant ships to private companies has met very general approval. Indeed, it is the only practicable plan thus far advanced for the operation of our merchant marine which the people hope to see employed in the channels of commerce in the near future.

It is generally admitted that it would be a vain undertaking for the United States government to attempt to operate the merchant marine somewhat after the manner in which it conducts the railroads. Our merchant ships will be in competition with those of other nations and they must come down to the prevailing methods of doing business at least in the matter of charges and sailings. Otherwise they cannot get the business. The government will aid them for a few years, after which they will have to depend entirely upon their own resources.

It is now in order for some prominent railroad man to devise a plan by which the government will get out of the railroad business with the best grace possible. The longer the railroads are held by the government, the more difficult it will be to transfer them to private ownership where they belong. Under government management, the business has become so very expensive that freight and passenger rates have been greatly increased and are likely to be still further advanced.

The equipment provided for by the government costs more than twice the cost if turned out for private parties. Thus it appears that the director general is responsible for extravagance that comes back to the people in the form of increased rates that is discouraging to the business public.

Postmaster Barleson has incurred the displeasure of certain elements in the nation because he wishes to cling to business principles and refuses to be stampeded into granting everything demanded by the new departments that have come under his control. It may be that he has been rather peevish in his attitude toward the postal employees, but he wants to stick to business principles and to conduct the government business as if it were his own. He makes the statement that he does not see why the government should pay so very much more for labor or materials than is paid by private parties.

Perhaps Mr. Barleson is the only department head who looks at the situation in this way. It is altogether to his credit and if other officials stick to business principles and consider the equities of the situation, they might be led to tell Mr. Barleson's view as to the right method of conducting the government's business.

## INDUSTRIAL PEACE

In order to preserve industrial peace, it is plain that the government must adopt a different attitude towards strikes and lockouts.

Neither employer nor employee would favor compulsory arbitration, but it is evident that the same purpose can be attained by the prompt investigation of labor troubles as soon as they are announced.

It has been urged that the League of Nations can prevent war in a great many cases merely by investigating the troubles between the contending nations and reporting upon the facts in the case. The same method will prevent labor strikes in many cases, first, by causing delay in calling a strike and, second, by publishing the facts

## THE LABOR LEAGUE

The peace conference has made provision in the covenant of the League of Nations for an international labor league to be organized independently, for the purpose of bringing about something like uniform conditions of labor in the different countries of the world, where this is at all possible.

This league will not be ratified for 15 months or more and while the aim is to promote certain fixed principles as necessary to the well being of the working people, there will be exceptions and modifications to meet the conditions of climate and local circumstances that might render adherence to uniform and fixed rules impossible.

The main principles of the labor league will be, that labor shall not be held as an article of commerce, that there shall be a standard and adequate wage, an eight hour day, equal pay for equal work by man or woman, and finally the protection of children against the abuses of child labor. Women are to be well recognized in the organization as of the four delegates to be chosen to represent each government, one will represent the women and one labor in general.

## WASTING TIME

The Boston Chamber of Commerce spends a large portion of its time in submitting public questions to a referendum of its members. Just at present, it is taking a referendum vote upon the necessity of having President Wilson call an early session of congress. It is well known that an extra session is very necessary and that it is needed at the earliest possible moment in order to overcome the bad effect of the republican filibuster, when a number of appropriation bills failed of passage. The chamber of commerce wastes a lot of paper and apparently much clerical work on reaching a conclusion which is self evident. Would it not be possible for a few of the directors who have sound judgment on such matters, to sense the situation sufficiently and thus save the organization the expense and the labor of this tedious process of reaching a decision on a matter that any business man can decide accurately in five minutes?

One witness at a Dedham divorce case testified that the plaintiff, a woman, showed up drunk at a church social. As the witness is a minister, his veracity may be accepted at par, even if his experience may be said to handicap him as a judge of intoxication. What we had in mind, however, was the lamentably bad taste of any person, man or woman, selecting a church social to go to when drunk. There is certainly no such camaraderie, wisdom and all around good fellowship flowing at a church social as is reputed to be always found in the places where booze is sold. But if the lady in question sought spiritual aid of a different kind, it was equally bad form for the minister to denounce her.

A New York banker announces that he believes the high cost of living is slated to remain. Nearly every person is scrambling for higher wages and all persons having food, clothing or other commodity to sell, seems not so much intent on quality or production of what they make, as they do in a painstaking study of how they can safely increase the price—and get away with it. It is no wonder the high cost of living does not decrease, when all the influences operate in the opposite direction.

In casting up personal accounts to see where your income or wages goes, do not forget, if train travel is one of the items on your list every year, that last year the wages of railroad men in the United States were increased so that the aggregate amount was \$65,000,000. It may divert your concern over the race between income and outgo to wonder if their votes will be unanimously registered for William Gibbs McAdoo, in case he runs for president.

Poor old Mexico has been afflicted with many evils for a long time past. Sometimes it doesn't seem as if fate had given Mexico exactly a square deal. But unfortunately, she will be farther away from good fortune than ever if a certain traffic, being barred from the United States, moves its headquarters to Mexico and starts distributing its product in that country.

The Boston Herald might have used a column to dilate at length on the subject, but at the end there would probably have been no truth, more concisely stated than was the case when the Herald's paragrapher said: "No spring ever brought better reasons for planting a grape vine."

## HOW WEAK WOMEN ARE MADE STRONG

Mrs. Westmoreland Tells in the Following Letter.

Harrison, N. Y.—"When my first child was born I did not know about Lydia E. Pinkham's Vegetable Compound and had a very hard time. I read in the newspaper about the Vegetable Compound and when my second child came I took it and was well during the whole time, and childbirth was a hundred times easier. Ever since then I have used it for any weakness and would not be without it for the world. I do all my work and am strong and healthy. I am nursing my baby, and I still take the Vegetable Compound and it keeps a woman in good health. You may publish my testimonial for the good of other women, if you choose to do so." Mrs. C. WESTMORELAND, Harrison, N. Y.

Women who suffer from displacements, irregularities, inflammation, ulceration, backache, headaches and nervousness should lose no time in giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial, and for special advice write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

## THE MAN ABOUT TOWN

The other day when I was up there on some other business. Gen. Mgr. Townsend was so cordial that I made bold to get what I regarded as first hand information about the "cave." I got laughed at. It seems that the name "cave" was a misnomer. "The general manager took pains to show a photograph of the room which had been called a cave by the workers and I can tell you that it wasn't at all an unpleasant or disagreeable place in which to work. It was the place where the inspection of fuses was done and no one was locked in and so far as I know, if any girl wanted to go in or out of the door she went.

The men who are assisting the board of assessors, come back each day with a number of human interest stories connected with their experience going from house to house. One man, according to the little story he told me, must have encountered romance—or perhaps romance had departed that house a little while before the assessor arrived. Time will tell. This was one of the cases where the woman of the home wanted to tell quite a lot about herself.

"What is your husband's name?" "Well, I don't know whether it is going to be necessary for you to take down his name or not."

"Why not?" "It was like this. I was a widow with one child. This fellow I married came from away up in Caribou, Me. He was a Camp Devens soldier. He came over here to Lowell, we got acquainted and started keeping company. It looked like love at first sight or at least it was on his part, and on my part of course I wanted to get married and have somebody help take care of the child and myself. He got discharged from Devens, came to Lowell, did some more courting and two weeks after he was discharged, we got married. Well, he honeymooned and part of the time the next two weeks he hunted for work. He couldn't find any work. So, discouraged, he thought he'd better go off in the woods and so chopping. He went to New Hampshire and has been up there quite a time. He sends me some of his wages every week. It seems like a pretty good man but I don't know if he will come back or not. So, that being the case, do you think you better take his name?"

The assessor who still retains some faith in a source and the integrity of true love, congratulated the woman on having a soldier husband and said he had decided to officially record the name because he had a hunch the woodchopper would return to his new household in Lowell.

## DEMONSTRATION GARDEN

Conducted Under Direction of Charles T. Upton, Garden Supervisor For Lowell

The following article relative to early planting is supplied The Sun by the Middlesex County Bureau of Agriculture and Home Economics. This bureau is co-operating with Charles T. Upton, garden supervisor for Lowell, and the demonstration home garden in Lowell is under his supervision. This is the second in a series of articles that home gardeners will find very helpful.

When can we plant with safety? This is a universal question among us home gardeners just about this time of the year. And it is as important as it seems because planting is governed by so many things such as moisture, temperature, climate, the time when the matured crop is desired and by the crop itself.

Perhaps it is safe to say we can begin to plant about the third week in April in this section. We shall plant our demonstration home garden about this time.

As planting time varies each season, we are watching Nature's doings and are governing our planting operations accordingly. We shall not go far wrong by observing these natural signs.

We may safely plant vegetables which are known as hardy or cold weather types as soon as danger from heavy frosts is past and the soil has commenced to warm up some. At the time the young leaves appear on apple trees we may plant beets, Brussel sprouts, cabbage, carrots, cauliflower, celery, kale, lettuce, onions, onion sets, parsley, parsnips, peas, radish, spinach and turnips.

We should not plant the tender or warm weather vegetables until all danger from late spring frosts has passed and the apple trees are in bloom. Then we may plant our beans, corn, cucumbers, melons and squash. We may also set out our tomato plants, eggplants and pepper plants at this time.

It is a good plan for us to plant our seeds somewhat thickly and later thin out the young plants to the desired distances. This practice is an especially important one to follow when we are in doubt as to the germinating qualities of our seeds.

We find there is nothing to be gained by soaking seeds before planting and this practice should be discouraged.

If we soak our seed potatoes for 30 minutes in a solution of 1 ounce corrosive sublimate in 12 gallons of water we can prevent many potato diseases. Dry in sun before planting.

Hilling or ridging up the soil only increases the soil surface hence producing more evaporating of soil moisture. This practice is only advisable on poorly drained wet soils and should be discouraged in all other cases.

It is well for us to plant the larger seeds such as peas, corn and beans from 1 to 2 inches deep and the smaller seeds not over 1/2 an inch in depth. We should take great care in covering the seed and firming the soil over it.

We should not plant too deep on heavy soils or when the ground is inclined to be wet. We should plant a little deeper in hot, dry periods or on exceptionally dry soil.

It is perhaps a better practice for us to apply our fertilizer broadcast over our gardens instead of applying it in the row itself. If seeds are allowed to come in contact with the fertilizer, we find that they will fail to germinate.

We should plant in long rows and not in small patches. Long rows save labor and space and they are very much easier to cultivate.

We feel that it is a good plan to plant the taller growing vegetables at the north end of the garden. If we plant a predominance of beans, greens and root crops we shall raise the maximum food value from a given area. We should only plant peas, corn, and potatoes when we have a large garden and spare the room.

Next week we shall consider cultivating.

## CLEMENCEAU LAUDS THE RAINBOW DIVISION

REST, Sunday, April 13. (By the Associated Press.)—Vice Admiral Moreau, governor of Rest, reviewed the American 42d (Rainbow Division) here today and read a letter to the assembled troops from Premier Clemenceau in which the achievements of the division were eulogized. Brig. Gen. George W. Read received from the vice admiral the coveted 1st commander of the Legion of Honor and several other officers were made chevaliers of the legion. Later there was a brilliant far-away reception to the American soldiers who are here to embark for the United States.

## LIBERTY LOAN QUOTAS

Will Be Three-Fourths of the Quotas in the Fourth Loan

WASHINGTON, April 11.—Quotas of most communities for the Victory Liberty loan will be three-fourths of the quotas in the fourth loan, since the \$4,500,000,000 total of the Victory issue is three-fourths of the six billion quota of the fourth issue. The goal assigned each community and state is left, however, to the federal reserve district loan organization and is not determined by the treasury. Quotas of the 12 federal reserve districts are the same in percentage as in the last issue.

A Japanese newspaper thinks that the pay of Japanese soldiers is too small, although it is 75 cents a month for first and second-class privates and 55 cents a month for corporals.

CHICAGO, April 11.—Dissolution of the National Baseball commission, the "supreme court" of organized baseball, absolute severance of relations with the National Association of Amateur Leagues, and provision of the players' contracts eliminating the 10 days' and reserve clauses, will be the probable result of the \$24,000 verdict granted the Baltimore club of the Federal League by a jury in the District of Columbia supreme court Saturday in its suit charging the major leagues with maintaining a monopoly of baseball contracts.

Pres. Johnson said that an appeal would be taken to the court of appeals of the District of Columbia and, if necessary, to the supreme court of the United States.

# LOYD GEORGE ALARMED

Defeat of Government Candidate Brings Appeal To Revamp Financial Plan

PARIS, April 14.—Alarmed by the result of the bye-election at Hull last week, Premier Lloyd George, according to the Echo de Paris, has persuaded the council of four to completely revamp the financial plan to be incorporated in the treaty of peace, instead of a payment of 25,000,000,000 francs on account and annual payments to be fixed by a commission. It has been decided to fix at once the amount which Germany will have to pay within 50 years. This amount is kept secret, but it is indicated by the newspaper that a figure of 250,000,000,000 francs has been agreed upon, which includes all war damages as well as the cost of pensions.

Fixing the total sum will have the merit of facilitating treasury operations and the carrying out of mutual measures for assistance between the allies. The first instalment of 25,000,000,000 francs must be paid within 15 months, the newspaper declares.

Other newspapers, however, do not mention any such change in the terms, but all information in French quarters agrees in regard to the sum. It is said that it is settled the allies will become the absolute property of France, which will police the region, but that it will be administered by a sort of directorate under the auspices of the League of Nations. This directorate will consist of one inhabitant of the Sarre region, one Frenchman and three nominees of the league.

The critics are dissatisfied with the plan for military occupation of the left

bank of the Rhine, although the methods to be followed have not been finally decided upon. It is stated in French quarters that this will be entirely in the hands of French troops.

"Perlinax," writing in the Echo de Paris, maintains that if France is left to "guard along the common good of civilization, she ought to be backed actively by a defensive alliance with England and America which is clearly defined in detail.

## Brief Visit to England

PARIS, April 14. (Havas)—Lloyd George's visit to England will be brief, according to the Petit Journal, and he will be back in Paris on Friday.

## Faith in Premier

LONDON, Sunday, April 13. (via Montreal).—Commenting on the Hull bye-election in which the government candidate was defeated the Daily Express remarks that it has "faith in Lloyd George and Andrew Bonar Law as heads of the government, but no belief whatever in the abilities of several of their colleagues."

The Daily News finds in the result a definite pronouncement against conscription.

The Manchester Guardian ascribes the defeat to the disillusionment over the punishment of the Kaiser and the abolition of conscription.

## BILLERICA NEWS

An action of contract in the sum of \$2000 has been brought against the town of Billerica by the Suburban Land Co., Inc. in an endeavor to recover for alleged overcharge for water used on its premises in the Natick lake district. The company has asked the water commissioners for a rebate, but the request has been refused on the ground that a satisfactory rate had been fixed between the commissioners and the land owners. The case will be called at the Suffolk county superior court on the first Monday in May.

# WELDONA MAN IS IN TOWN AT LOCAL DRUG STORE

Tells How Common Pin May Help Rheumatism. Gives Book Entitled "Germs of Rheumatism—How They Live—How They Die" Free to All

Says Weldon Knocks Pain and Stiffness Sky High

The Weldon man is in town at a local drug store. He's busy every minute passing out a book which he says is "A bundle of facts worth a

bushel of dollars" to every rheumatic. This book is entitled "The Germs of Rheumatism—How They Live—How They Die."

Take the common pin—very few would ever think that such an article could help strengthen and educate the muscles of a rheumatic—but follow the directions in the book and watch your progress.

You have got to go after rheumatism in the blood, but that doesn't mean you will have to wait a year to get results. This new remedy, Weldon, will show you some results in a week or less, and it does not contain any harmful drugs, either. It helps the stomach and cannot disturb the heart or any other organ.

Take the man or woman suffering from painful and stiff joints; tried everything recommended, no relief—give them Weldon for a few days and watch the improvement. The stomach is better, the strength returns, and the pain and stiffness is almost a thing of the past.

Let me warn sufferers from rheumatism to keep away from alcohol, alcohol in whiskey, beer or medicine is a poison to the system and the sooner a man realizes this, the better.

I want to meet every man and woman suffering from rheumatism in this city. I want them to know how they can find relief—can find joint ease and comfort in every package of Weldon.

It was stated that the Weldon man would continue to meet the public every day at Dows, the druggist, Merrimack square, to explain more about Weldon and give out this wonderful little book free of charge.

# Tonic Treatment Corrects Severe Nervous Disorder

Connecticut Man About Ready To Give Up Hope of Improvement When He Found a Remedy

Don't grow depressed because you haven't been able to find relief for nervous disorders. Depression neutralizes the value of medicines and retards recovery. Frequently the nervous complaint is caused by the failure of the blood to carry the required nourishment to the nerves. The nerves receive their strength directly from the blood and in no other way and once the blood becomes thin and weak the nerves refuse to function naturally. The logical treatment of nerve disorders is to renew the blood.

One of the most successful treatments in some of the most serious nervous diseases has been the use of the tonic which Mr. Harry LaFrancis, of No. 27 Seymour street, Hartford, Conn., took. Mr. LaFrancis relates his experience as follows:

"My trouble started with numbness in the feet and the numb feeling gradually went up the limbs to my hips. This was accompanied by pains that were almost unbearable. The pains were so bad that at times I couldn't sleep and often would have to get out of bed the agony was so intense. When the disease reached my spine it affected my limbs so that I could not walk right. There was poor circulation in my legs and they were colorless. I could not bear the weight of the bed clothes on them.

"My nerves seemed to twitch, my appetite was very poor and I could hardly eat anything. My eyes were also affected. I was told that I had a form of paralysis bordering on locomotor ataxia.

"I read about Dr. Williams' Pink Pills in a newspaper and after I had taken three boxes I noticed that my appetite was better and my nerves quiet. I was encouraged and continued the treatment and the result was most gratifying. I can feel a circulation in my limbs and can walk much better. I certainly have great faith in Dr. Williams' Pink Pills for they have helped me wonderfully."

To build up the blood there is one remedy that has been a household word for a generation. Dr. Williams' Pink Pills for Pale People. They tone up the entire system, make the blood rich and red, strengthen the nerves, increase the appetite, put color in the cheeks and lips and drive away that unnatural, tired feeling. Plenty of sunlight, good wholesome food and fresh air will do the rest.

A useful book, "Diseases of the Nervous System," will be sent free by the Dr. Williams Medicine Co., Schenectady, N.Y. Your own druggist sells Dr. Williams' Pink Pills or you can order them direct by mail, postpaid, at 50 cents a box, six boxes for \$2.50—Adv.

**ATTACK AMENDED DRAFT**

Inferior to Old, Say London

Papers—Bitter Criticism of

Pres. Wilson by Post

LONDON, April 14.—The summary of the amended covenant of the League of Nations evokes no enthusiasm in the London morning newspapers and it is declared by some commentators to be less satisfactory than the first draft.

The Chronicle, for instance, fixes certain points which it thinks makes the new draft "distinctly, and perhaps decisively inferior to the old." It condemns the policy of requiring unanimity for the decisions of both the council and assembly and also condemns the terms upon which the covenant may be amended and permission given any nation to withdraw on two years' notice. It regards the covenant as unharmed by the Monroe doctrine amendment which it believes should facilitate the admission of the United States to the covenant.

The Daily News, which is a warm champion of the principle of the league, sees danger in some of its provisions. It objects to the constitution of the new council which, it says, "will manifestly be controlled by prominent representatives of the five great powers when they are in agreement."

The labor paper, the Daily Herald, says the summary does not indicate much improvement on the original draft. It declares that, from a democratic viewpoint, "the league is still an alliance of states and not a union of peoples."

The Post which is an opponent of the league and a severe critic of Pres. Wilson, refers ironically to the "new Garden of Eden, in which the Monroe doctrine will take the place of the Tree of Knowledge of good and evil, the fruits of the western hemisphere being forever forbidden to signatories of the league."

Attributing to President Wilson personally the features of the draft to which it most objects, the Post says that "posterity will place him with Metetrich and Castlereagh as one who worked for the confusion of other nations and the greatness of his own. It concludes by declaring it monstrous that such a covenant should be signed without being first fairly considered by the public and parliament."

This is the final week of the Ameri-

Rushes, Taylor 14, Higgins 1, Harkins 2, Donnelly 2, Morrison 1, Malloy 1, Peace 50. Referee, Purdie. Time, 60 min.

## FINAL WEEK OF POLO LEAGUE—GREAT RACE

This is the final week of the American Roller polo league, and next Saturday will mark the end of a very successful season, one of the best in the history of the great indoor game. The race for the pennant has been very close and exciting, and with Salem and Lowell practically deadlocked for first place, possession of the lead, will probably not be determined until the final games are played. Lawrence and New Bedford finished their schedules on Saturday night, leaving four teams to fight it out. Providence and Worcester, while out of the running for the flag, will play an important part in deciding which team will obtain possession of the emblem. These teams will furnish the opposition to the contenders, and upon their ability against the rivals for the first place, depends the ultimate result. Salem has a slight advantage over Lowell in the final dash, as it has three home games scheduled, while Lowell has but two. On Saturday, Worcester will play at Salem, while Lowell will clash with Barnie. Doherty's Gold Bugs at Providence. Tomorrow night Worcester will play at the local rink. Salem has a home game with Providence on Thursday night, while Lowell will entertain the Gold Bugs on Friday. Saturday, the final day of the race, will find the contenders playing two games each. Lowell plays at Salem in the afternoon and at Worcester in the evening. Salem will come to Providence in the evening. It's a great old race.

This week's polo schedule is as follows:  
Monday—Worcester at Salem, Lowell at Providence.  
Tuesday—Worcester at Lowell.  
Wednesday—Providence at Worcester.  
Thursday—Providence at Salem.  
Friday—Providence at Lowell.  
Saturday (Afternoon) Lowell at Salem; (Evening) Lowell at Worcester. Salem at Providence.

The proposed barnstorming trip of the polo players is to be a two weeks' journey into the west. Many of the players who are on the trip are those who live in that section and it may be that it is a "feeler" to see how the game would play in the west. The trip is to be run by a western promoter. It may be that next week will see the east and the west battling again for the players—as of old, Frank and Quigley, Farnham, Harold and Mount are likely to contend for a team, while Jean, Kid and Red Williams, Taylor, Griffith and Pence are being considered for the other.

## FIRST LADY SOCCER REFEREE

It has fallen to the lot of Joe Booth, the Connecticut live soccer who introduced to the soccer world the first lady referee, to referee Joe who is secretary of the Bridgeport public school soccer league, is always on the lookout for someone to take charge of the game and carry on the season was introduced to Miss Helen Clark who during the summer months was in charge of the public playgrounds of the Bridgeport board of recreation, and as she was just finishing her duties for the summer months when the first schoolboy soccer games were being played on the old Hill Green playground of Bridgeport where she was stationed at that time, Joe noted that she had in her hands one of Bridgport's Soccer Guides and for Joe just asked her how she would like to take charge of some of the schoolboy games. He was greatly surprised when she stated that she was willing to give him a helping hand. She was pressed into service right away and less than a season later she was one of the schoolboy referees of Bridgeport, the majority of which she played after school hours. In addition to officiating as a referee, she coached the Bridgeport schoolboy team in the league and when she took hold the team was in one of the lowest positions of the league. Through her careful tuition the team reached the second place in the league, and also won one of the knockout competitions staged by the committee. She intends next season to take charge of some of the senior games of Bridgeport and if she is successful she will be a regular member of the committee and will become the first woman referee to be affiliated with the United States Soccer Union.

Booth, given and a promise of a second woman referee to officiate in the schoolboy games but the lady interested was prevented at the last moment from officiating and as it was only in the closing stages of the league that she was discovered it was impossible to bring her into use but it is a certainty that this second woman referee of this country will be introduced in Bridgeport during the spring series of the Bridgeport Public School soccer league.

**BOXING**  
PHIRNEY BOYLE vs. BENNIE VALGAR  
Crescent Rink, April 19

What should prove one of the greatest bouts ever staged in this city has been arranged for next Saturday afternoon by the directors of the Crescent A.A. They have matched Phirney Boyle, the Lowell whirlwind, and Bennie Valgar, the New Bedford flash, to appear in the main bout of 12 rounds. Boyle and Valgar are among the most prominent "little men" in this section and there will be a coming championship bout there will be of his last six hours, losing one on a questionable decision. In all he showed wonderful boxing ability and experts who have seen him in action aver that he is a coming title holder. Valgar, too, is rated high in the estimation of boxing authorities. His recent victory over Edith Brady at Boston gave him a great boost and he will come to Lowell confident of adding another victory to his long list. Both men started last week in training for the bout and they expect to be in great condition when the bell rings.

Frank Mollins of Lowell and Jack Mansfield of Lawrence have been signed up to appear in the semi-final. This number should prove a hummer. There will also be two good preliminaries.

Beginning today, members may secure reservations at the Crescent A.A. and despite the fact that this is a "big season" there will be no advance. The regular assessments will prevail. The balcony seats are limited, per order of the officials, and hence those desiring to view the bout from that section must step lively.

The Boston Traveler says: "Travis is being showered on at St. Peter's of New Bedford for having just won recently to Pete Herman, the bantamweight champion, but, while Shubert deserves all the credit that has been given him, he should not overlook the fact that there is a little fellow right in our midst who has something on the New Bedford boxer."

We refer to Chick Hayes of Indianapolis, the former Radio school champion, who gave Shubert a boxing lesson at Manchester, N. H., about a month ago. Before the friends of Shubert crown him champion of the bantamweight class, they should insist that he wipe out the defeat that Hayes placed on his record by a referee's decision. The boys with Herman were both of the "two division" variety, therefore the Whaling City boy has gained but little. Hayes, we understand, is ready to fight Herman and make any weight the champion stipulates.

## 150 TENNIS TOURNEYS SCHEDULED FOR 1919

The tennis schedule for 1919 shows 150 tournaments sanctioned by the United States National Lawn Tennis association, exclusive of the junior, boys' and girls' events which are listed separately. This number will be increased when some uncertain dates are fixed. Although there are fewer tournaments than in 1917 when the high-water mark was reached, the association's officials are gratified to see that the war's effect on tournament play was temporary. That competition will be conducted on a broad scale. Practically all the state championships that have been played in former years, appear; certain events have not been scheduled as the dates are still under discussion. All the sectional doubles championships will be held, except the Pacific northwest whose officers plan to devote most attention to the junior and international matches this season, and the later tournament. It is expected also that a number of tournaments held previously by clubs which were hard hit by the war, being dependent upon a "summer population" will be added as soon as these clubs have a chance to perfect organization and resume activities.

The first national championship will be played at the Philadelphia Cricket club on June 16th, this being the world's and girls' event. The Clay court championship comes next on the 14th of July at the South Side club in Chicago. On August 12th the national doubles championship will begin at the Longwood Cricket club in Boston. The singles championship, together with the finals in the junior and boys' and the veterans' and the father-and-son championships, will be played at the West Side Tennis club, Forest Hills, L. I., beginning Aug. 25th. Other important events are the East-West team match at Cincinnati July 10th, and the Intercollegiate championship at the Merion Cricket club in Philadelphia September 5th. Resumption of general play by the colleges and the addition of a number of interscholastic tournaments as part of junior schedule show the increasing interest among the younger players.

The Universals defeated the Holy Crosses 6 to 2, Saturday, by the score of 6 to 1. The playing of A. Furrows and the pitching of Arthur I. featured for the winners, while for the losers D. Prudhomme starred.

## ARGENTINA RACE HORSE BRINGS \$200,000

Down in Argentina, where they have no income taxes to pay, Batafoga, the fastest race horse ever bred in South America, recently changed owners for a consideration of \$200,000. The seller also has the privilege of breeding 10 mares to him. Only one horse ever sold for so much. Prince Palatine, winner of the St. Leger and other great racing events in England, selling for \$200,000 eight years ago. Batafoga is a dark chestnut and his sire is the native-bred horse, On Man, which has in more than one year led all imported sires in the Argentine as sire of winners. The dam of Batafoga was the English-bred mare Korea, imported into the United States by Johnsen N. Candiani of Kew-Forest, and raced here as a two and three-year-old unsuccessfully. She was shipped to South America in 1916 and sold there with a bid for \$100,000.

The new owner of Batafoga, M. A. Martinez de Hoz, is the best-known and probably the most successful breeder of race horses in Argentina. He twice won the championship of the London Hackney show with a horse of his own breeding, which he shipped from Argentina. He recently sold at auction the short-horn bull, Pearl Hunter II for \$40,000, and when Batafoga was unsold after missing first in the Derby of 1912, he paid \$150,000 for that horse to head his stud. His money seems to be a habit with him.

**Are Willing to Pay**  
The South Americans have paid the top prices for horses during the last 30 years. In 1859 they established the record by paying the Duke of Westminster \$86,500 for a colt named Arion. In 1892 they sold the same horse to a California man for \$150,000. Other high priced horses that have gone to the Americas were Chiffo, \$17,500, and Diamond Jubilee, \$15,200, of the nine horses that have sold for \$10,000 or more. Argentine breeders have bought five and sold two.

The highest priced horse sold in America was Jack Sand, an imported English horse, sold by his American owner for \$150,000 to go to France. In 1912, the highest priced horse of American breeding was the trotter, Arion, for which the late A. J. McClellan paid \$125,000 to Senator Stanford of California. Arion was only two years old when this transaction occurred, but he had started and won by trotting a mile in 2:10 to a high-wheel sulky.

**Army Horse Show**  
The American Army of Occupation held a horse show March 7 and 8 at Neuweid, Germany, which brought into competition every type of horse in the army and the male. The Red Cross donated the catalogue of 32 pages and the Y.M.C.A. the cash prizes. Major Gen. John L. Hines of the 3d Corps stimulated entries and competition by awarding seven days' leave of absence to the winners. Those who finished second got five days' leave and the runnerup drew three days. Some of the classes drew as many as 40 entries or more.

The show was a great success, so much so that in general orders the commanding general expressed his gratification over the splendid exhibition made by the divisions and the corps troops, showing the high standard for animals and animal transportation attained by this command.

**Metropolitan Dinner**  
The fourth monthly dinner of the Metropolitan Driving club will meet Wednesday at 6:30 p. m. and will be the last of the season. Important matters concerning the summer's racing program will be talked over and "Tommy" Murphy of Poughkeepsie, Drs. W. W. Simpson of Malden and L. H. Howard of the state house will be guests.

Syracuse has renewed the Empire State, for \$10,000, for 2,112 trotters. The 108 trotters and 2,112 pacers will race for \$200 each, and the 2,000 pacers for \$200. The 2,112 trotters, the 2,200 3-year-olds and the 2-year-olds have an opportunity to engage in sweepstake events of \$37.50 each, with \$750 added to each event by the association. With the wealth of 2 and 3-year-old material available this season, as indicated by the remarkable entry in such events at Cleveland and elsewhere, it seems too bad that the city of New York, as represented by the Syracuse state fair, could not have given more money for these events.

**Meeting at Poughkeepsie**  
There is no longer any doubt about a Grand Circuit meeting in Poughkeepsie, and the effort to remove the meeting to the Empire City track has failed, much to the satisfaction of the campaigning horsemen who had no desire to move their good trotters over that bad footing. It is a good thing in every way, for repeated failures have proven conclusively that New York will not support a trotting meeting at the Empire track.

The Hudson River Driving association is now entirely a Poughkeepsie project, with some of the most substantial citizens of the little city among its members. George B. Ruppert is president, Alfred T. Jenkins secretary and E. E. Perkins treasurer. All are members of the Poughkeepsie chamber of commerce, and that organization has voted its support to the racing association. A working fund, more than ample to guarantee the purses, has been subscribed and paid in.

**DIRECTORS FOR DAY NURSERY**  
Directors were elected and an interesting report of the doings of the organization during the past year was read at the annual meeting of the Lowell Day Nursery association, which was held Saturday at the offices of the treasurer, James Gilbert Hill in the Sun building. During the meeting Franklin Nourse acted as president pro-tem, and Philip S. Marden as clerk.

The directors chosen were as follows: Term expiring April, 1920: Mrs. Julian Talbot, Philip S. Marden, Mrs. Joseph P. Talbot, Mrs. Helen M. Hill, Elmer L. Bowen. Term expiring 1921: Mrs. Mary G. Morrison, Mrs. L. E. MacBryne, Mrs. W. D. Lawler, Stephen T. Whittier, Tyler A. Stevens. Term expiring 1922: Mrs. J. L. Chaffoux, Mrs. M. A. Plunkett, Jude C. Wadsworth, John L. Robertson, John H. Murphy.

J. Gilbert Hill was re-elected treasurer, while Daniel P. Carroll was chosen clerk. The position of president made vacant by the death of Dr. Moses G. Parker was not filled. The treasurer read an interesting report concerning the doings of the association during the past year. It was pointed out that the property secured in Police street for a new nursery has not yet been reconstructed because of war conditions. The association, it was stated, is able for the time being to live with but little addition to its regular income. The total number of children cared for in 1918 was 12,858, a daily average of 36.

## News of the Churches

Local Catholic churches observed Palm Sunday yesterday with the usual services of blessing and distributing palm in commemoration of Christ's entry into Jerusalem and there were large congregations at the parish masses in the various churches when the palms were given out.

Members of the Holy Name society of St. Peter's, St. Columba's, St. Patrick's and the Sacred Heart churches received communion at early masses in their respective churches yesterday.

This week is Holy Week and will be observed with customary devotion and impressiveness. Wednesday and Saturday up to noon will be days of abstinence. Thursday will be Holy Thursday and one mass will be celebrated. Communion will be given at convenient hours for those who go to confession Wednesday afternoon or evening. The mass of the pre-sanctified will be celebrated Friday and stations of the cross will be at 3 o'clock in the afternoon. There will also be services Friday evening.

In many of the churches tenebrae services will be held Thursday and Friday night. The usual custom of visiting churches will again be in vogue on Holy Thursday. Easter, which comes next Sunday, will be observed with solemn and special musical programs.

**St. Patrick's**  
Members of the Holy Name society of St. Patrick's church received communion at the 7 o'clock mass yesterday. The pastor, Rev. William O'Brien, P.R., was the celebrant and Rev. Joseph A. Curtin assisted in giving communion. Rev. James J. Keenan celebrated the late mass and Fr. Curtin was the preacher. Masses on Thursday, Friday and Saturday will be at 8 o'clock. Tenebrae services will be held Thursday and Friday evening, stations of the cross at 3 o'clock Friday and blessing of holy water after the mass on Saturday.

**Immaculate Conception**  
Members of the Immaculate Conception sodality received communion in a body at the 8 o'clock mass at the Immaculate Conception church yesterday. Rev. Owen P. McQuaid, O.M.I., was the celebrant and the pastor, Rev. Lawrence F. Tighe, O.M.I., assisted in giving communion. Rev. James B. McCartin, O.M.I., sang the parish mass and the pastor made the announcements. Communion will be given Thursday morning at 5.15 and 7 o'clock and mass will be at 8. Confessions will be heard Wednesday afternoon and evening. The mass on Friday will be at 8 o'clock and the Saturday mass at 7. Stations of the cross will be held Friday at 3 and tenebrae services Thursday and Friday at 7.30 p. m.

**St. Michael's**  
Rev. Francis J. Mullin celebrated the parish mass at St. Michael's church yesterday and Rev. James F. Lynch was the preacher. Rev. John J. Shaw, the pastor, celebrated the 8 o'clock mass and members of the Immaculate Conception sodality received communion in a body. Rev. Fr. Lynch assisted in giving communion. Tenebrae services will be held Thursday and Friday at 7.30 p. m. and the mass on these mornings will be at 8.30. The mass of Holy Saturday will be at 8 o'clock. Stations of the cross on Friday will be at 8 o'clock.

**Sacred Heart**  
Rev. William Mahan, O.M.I., celebrated the high mass at the Sacred Heart church yesterday, and the pastor, Rev. John P. Flynn, O.M.I., preached the sermon. Members of the Holy Name society received communion at the 7.30 o'clock mass, and after mass the Junior branch of the same society. Rev. Henry Burns, O.M.I., was the celebrant and the pastor assisted in giving communion. Communion will be given Thursday morning at 5, 6 and 7 o'clock. Mass will be celebrated on Thursday and Friday at 8 o'clock and on Saturday at 1. There will be services Thursday and Friday evenings at 7.30, and stations of the cross Friday afternoon at 5.

**St. Peter's**  
At the 7.30 o'clock mass at St. Peter's church yesterday more than 500 members of the Holy Name society received communion in a body. The pastor, Rev. Daniel J. Keleher, Ph.D., was the celebrant and Rev. Peter Linahan assisted in giving communion. Rev. Marston was the preacher. In the eve-

ning the pastor spoke on the theme, "Does God Make Demands of Men, or is Religion a Voluntary Matter?" Special Holy Week services will be held every evening this week except Saturday.

**First Baptist**  
Rev. A. C. Archibald took for his topic at the First Baptist church yesterday morning, "The Pre-eminence of Jesus." In the evening he spoke on "The Man Who Turned to Stone."

**Immanuel Baptist**  
Rev. D. J. Hatfield conducted the services at the Immanuel Baptist church yesterday, preaching in the morning on the theme, "The Last Name." In the evening the topic was "Individual Responsibility." A special business meeting of the church will be held at 7.15 o'clock this evening.

**Pulse Street Baptist**  
"The Lily of the Valley" was the subject discussed yesterday morning at the Pulse Street Baptist church. Rev. Earl T. Pavro conducted both services, preaching in the evening on "The Rose of Sharon."

**Christian Science**  
The regular services were held at the Christian Science churches yesterday and the subject under discussion was "Are Sin, Disease and Death Real?"

"Going and Making Disciples" was the subject discussed yesterday morning at the Worthington Street Baptist church by Rev. Walter A. Woodbury. The evening topic was "The Fascinating Religious Opportunity."

**Ellet Congregational**  
"The World's Greatest Proclamation" was the subject of the sermon at the Ellet Congregational church yesterday morning by the pastor, Rev. Herbert E. Barker. At the afternoon vesper service the pastor spoke on "A Backward and Forward Look."

**First Congregational**  
Dr. Chauncey J. Hawkins took for his subject at the First Congregational church last evening "After Barth What?" Mrs. Olive Dawley was the soloist. The annual convention of the Middlesex county C. E. union will be held in this city Saturday. The convention will be the guests of the Lowell C. E. union, and special union services will be held at the First Congregational church in the afternoon and evening at which all the C. E. societies of the city will have a part.

**All Souls'**  
"He Came" was the topic of Rev. A. B. Hussey's sermon at the morning service at All Souls' church yesterday. A special Lenten service will be held Wednesday afternoon at which the pastor will make a brief address. The monthly supper of the men's club will be held in the vestry Wednesday evening, and Rev. A. C. Dierbach of Boston will speak on "Efficiency."

**Highland Congregational**  
Rev. A. S. Beale took for his topic at the morning service at the Highland Congregational church yesterday, "Love's Anointing."

**Kirk Street Congregational**  
Rev. William F. English, Jr., conducted the services at the Kirk Street Congregational church yesterday morning, preaching on the theme, "The Uncrowned King." In the afternoon the young people of the church entertained the soldiers at the Y.M.C.A. building from 5 to 6 o'clock.

**Pantucket Congregational**  
"Action and the Religious Life" was the sermon topic at the Pantucket Congregational church yesterday morning. Rev. A. G. Lyon conducted both services, preaching in the evening on "Are You Saying It?"

**Union Services**  
Throughout the week the Congregational churches of the city will unite in special union evangelistic meetings. The Tuesday and Wednesday evening meetings will be held at the First.

## PICKEREL SWIMS IN CAKE OF ICE

BY O. B. JOYFUL

This will be good news to housewives who like fish, and just as like as not it will give the ice-man another excuse for boosting his prices.

Sam Whitman, South Lake, N. Y., was filling the creamery ice-house with lake ice. In one big cake he saw a fish, 11-pound pickerel. Breaking up the ice he landed the fish and took it home.

Folks believe that the fish was swimming in the water last winter when a sudden change in the weather froze the water so rapidly that the pickerel was unable to reach deep water.

That's a whale of a fish story, or it's a peach of a weather yarn. I don't know which. Anyhow the local correspondent says it's true.

It would be a nice trick for the ice-man to freeze the summer supply of fish into ice cakes during the winter, wouldn't it? Save running to the fish market every Friday.

He bought a house and lot. Nobody didn't carried away the lot, but someone (probably the brother of the fellow

Keep Government Wires Open

BOSTON, April 14.—Major Foster Vollenheimer, chief signal officer of the northeastern department, made plans today by which in case of a strike of telephone operators he would be able to maintain direct service between army headquarters, the Springfield armory, Watertown arsenal, Camp Devens and coast defense headquarters in this city. Enlisted men of his department will be used to operate the lines solely for government business.

Major John W. Hyatt, chief of staff to General Edwards, denied reports that enlisted men might be used to man telephone switchboards generally. "No such orders have been received and no such steps are contemplated," Major Hyatt said.

**Injunction Considered**

BOSTON, April 14.—The possibility that the federal department of justice might ask for an injunction to prevent interference with the handling of the mails as a result of the expected strike of telephone operators in New England was indicated today. The office of United States Attorney Thomas J. Boynton, after communicating by telephone with department officials in Washington, said the question of applying for a court injunction had been discussed but that no decision had been reached.

The action of telephone operators employed in the federal building here in notifying Acting Postmaster William E. Harty of their intention to join the strike today. It was pointed out that as these operators work directly in the service of the postoffice department, the handling of mails would be affected if they suspended work.

Department of justice officials said that if an injunction were sought, a decision of the United States supreme court in the Eugene V. Debs case, May 27, 1926 would be cited. In that case the supreme court upheld the action of the lower court in issuing an order restraining railway mail men from interfering with the operation of mail trains during a railroad strike. In the present instance, it was said, on account of the possible far-reaching effect of any action by the department of justice in connection with the telephone strike, officials at Washington would go deeply into the merits of the case before reaching a decision.

## OVERALLS AND JUMPER

Congressman Rogers To Assist in Digging For Construction of Memorial Park

READING, April 14.—Congressman John J. Rogers of Lowell has given his word to Attorney James W. Grimes of this town that on Community day, April 15, he will report in this town to the executive committee dressed in overalls and jumper and will aid in digging in the construction of Memorial park.

Merrick A. Stone, a resident who describes himself as "72 years young and married," will personally plant two large trees in the park on Community day, in memory of two living soldiers who made a fine record in the war. They are Dr. Marion C. Stevens and Dr. Ethel E. Grant, two young dentists who held commissions as lieutenants in the Medical Corps. Dr. Stevens did service in France and is now in Serbia with the Serbian commission.

Henry C. Martin, a Boston tea and coffee merchant, has made a valuable contribution to Memorial park. He bought the west street nurseries, which he will convert into a large

orchard, and he has contributed the more than 2000 shrubs and many ash, maple and catalpa trees on his place to the park. Skilled nursery men will remove these to Memorial park and transplant them under direction of landscape architect Warren H. Manning.

But the biggest and happiest surprise of all is being reserved by the executive committee. A big boulder of light gray field stone or mica schist has been found in the park. It is a monster and at present stands four feet above the earth. This stone is going to be polished and adorned and upon its face will be cut in lasting letters the names and record of all the Reading boys who made the supreme sacrifice in the war.

This lasting monument will stand at the head of an avenue of heroes, at either side of which will be planted the rows of beautiful shade trees, each one in memory of one of the Reading boys who died in the war. The whole will be dedicated with fitting ceremony on April 15.

Another surprise innovation at the park is the proposed amphitheater. At the far side of the Heare park plot is an immense gravel pit. At this place the workers will excavate and construct a big outdoor stadium. The walls will be banked and seeded. Provision will be made for the construction of a large portable stage, where outdoor dramatic and theatrical productions may be put on. The spectators may seat themselves on the surrounding banks and watch the shows which will be given there.

## BISHOP LAWRENCE AT ST. ANNE'S

St. Rev. William Lawrence, bishop of this diocese, was present at St. Anne's Episcopal church yesterday morning and spoke at the services of confirmation. Sixty candidates were confirmed, making a total of 155 confirmed during the past year.

Bishop Lawrence spoke particularly of the relationship of St. Anne's church to the community and suggested a future of vast power which will outshine even its accomplishments in the past. He said that the declining Protestant population in mill cities must result in one of two things—either amalgamation of the churches or their elimination altogether. He felt that Lowell is particularly well situated at the present time for the carrying on of a centralized work through the medium of St. Anne's church.

The bishop made a plea for loyalty on the part of the parishioners and urged them to give a more active support to the church than at any time in the past. He laid stress upon the work which must be accomplished by the laymen, saying that the great strength of a leader can only come to its fruition through a strong sympathy and help on the part of those laymen.

In May, Rt. Rev. Samuel G. Babcock, suffragan bishop, will confirm a class of candidates at St. John's church.

### Impressive Cantata

Another congregation which filled the church was present last evening at a musical service appropriate to the opening of Holy week, when Gounod's cantata, "Gloria" was given by the choir of 100 voices, under the direction of Frederick O. Blunt, choirmaster.

ter, with William Heller at the organ, and Mrs. Alice Hutchinson, Irvine as soloist. The work was impressively given and made the service one of profound meaning and significance. At the close of the cantata a Palm Sunday hymn was sung, followed by the "Inflammatus" from Rossini's "Stabat Mater." The offertory anthem was the passage "God so Loved the World" from Stuber's cantata, "The Crucifixion."

Although Mrs. Irvine was handicapped somewhat by a disagreeable cold, she sang beautifully and gave an outward sign that it was an effort for her to sustain the difficult soprano solos.

## WOOLWORTH WAS ABOUT TO EXECUTE NEW WILL

NEW YORK, April 14.—Death stayed the hand of Frank W. Woolworth, founder of the chain of Woolworth stores, as he was about to execute a will under which large bequests were to be made to charity and gifts to old employees, friends and relatives, according to his son-in-law, Charles E. F. McCann. An old will made 30 years ago, will be probated under which the entire estate is left to Mrs. Jennie Woolworth, the widow. The provisions of the new will, which was practically completed, but not executed, will be carried out by the family as far as possible. The estate has been estimated at between \$50,000,000 and \$60,000,000.

ADDRESS OF LOYALTY BY 170,000 RESIDENTS OF LIMBURG SENT TO QUEEN WILHELMINA

WASHINGTON, April 14.—In connection with the reported demands of Belgium for a readjustment of its frontiers involving the Dutch territory of Limburg, Zealand and part of Staats Vlaanderen, an official despatch today to the Dutch legation says Queen Wilhelmina has received an address of loyalty signed by more than 170,000 inhabitants of Limburg, almost the entire adult population of the province.

"While expressing her gratitude," the message adds, "her majesty declared this imposing manifestation would not fail to establish far beyond the Dutch frontiers the conviction of the unbreakable unity of the people and the territory of The Netherlands."

## BULLETIN

## League of Nations

April 14, 1919. Although we want to see "the Kaiser get his" and the Germans, who prepared for this war for so many years, punished and made to keep on paying for it for so many years—

War is an insidious plague. You never know when or where it will break out. It must be stamped out. We have got it under in one quarter and the disinfecting process is going on, but the infection has spread and the need severe treatment, as the inflammation is affecting the whole world.

There is one serum for this plague and that is the League of Nations and the sooner we bring them all under it the sooner the plague will be stamped out. Then the reconstruction, the rehabilitation and doctors' bills must be attended to, if such plagues are to be avoided and the League of Nations is to be respected.

Copies of the Constitution of the League of Nations, the joint debate between Senator Lodge and Prof. Lowell, other League literature, literature and buttons may be obtained free of charge at War Work Headquarters.

## WOULD EXCLUDE ALL BUT ENGLISH LANGUAGE

WASHINGTON, April 14.—Exclusion of all modern languages excepting English from the public schools as the most essential element in the development of the American consciousness was urged by Mrs. George Thatcher Guernsey, president-general of the Daughters of the American Revolution, in an address today at the opening of the 28th annual congress.

"It has been demonstrated," she declared, "that one of the greatest barriers to patriotism is a foreign language. This war has taught us that supreme mistake in all of our educational methods has been right here. We might as well try to grow roses in the Arctic as to develop an American consciousness while speaking a foreign language."

"What kind of an American consciousness can you grow in the atmosphere of sauerkraut and limburger cheese?" she asked, "or what can you expect of the Americanism of the man whose breath always reeks of garlic?"

To make every dweller in this country "the proud possessor of an American soul," Mrs. Guernsey said she would send Minnesota Scandinavians to the south, scatter thousands of Wisconsin Germans through New England and compel hundreds of thousands of Jews in New York to seek homes in the far west. This, she declared, was because American neighbors were needed by everyone of foreign birth or ancestry.

### BRAZILIAN ELECTION

RIO JANEIRO, Sunday, April 23.—Scattering results on today's presidential election gave a majority to Dr. Epitacio Pessoa, chairman of the Brazilian delegation to the peace conference. Dr. Pessoa is opposed by Dr. Ruy Barbosa, formerly ambassador to Argentina. Because of difficulties of communication with the interior, the definite result may not be known in two or three weeks.

PARIS, April 14. (By the Associated Press.)—Germany, under the peace treaty, must pay \$5,000,000,000 in cash or the equivalent in commodities before May 1, 1921. She must also issue immediately to the allied and associated governments \$20,000,000,000 of interest bearing bonds.

The interest on the bonds until 1926 will be either two or three per cent and after that date, will be 5 per cent, according to the present plan.

The bonds will be payable in instalments during a period of 15 years. They will probably be kept in the control of a central commission of the allied and associated governments so that they shall not be marketed in quantities sufficient to break the price.

Germany must also obligate herself to pay other amounts for damages done, appropriate to her means, to be determined by a mixed commission of representatives of the allied and associated governments and of Germany, which shall report before May 1, 1921.

## Trotsky Admits Defeat in East

LONDON, April 14.—Leon Trotsky, Bolshevik minister of war and marine, admits defeat on the eastern front, in a wireless message from Moscow which has been picked up here. It reads:

"All our efforts must now be directed to the eastern front, which is the only front upon which we have suffered defeat. We must send old and experienced troops to that quarter. It is absolutely necessary for us to capture Ekaterinburg, Perm and Ufa."

WASHINGTON, April 14.—Transportation of intoxicating liquors for beverage purposes through a dry state is not prohibited under the Reed prohibition amendment, the supreme court held today in an opinion interpreting that act.

The treasury department, it is stated, has not and will not make any representation to President Wilson concerning possible means of postponing the effectiveness of prohibition.

Up to State Officials

NEW YORK, April 14.—State officials will be charged, under their own laws, with enforcement of the wartime prohibition act, according to William H. Anderson, state superintendent of the Anti-Saloon league, who spoke at the New York East conference of the Methodist Episcopal church, in Brooklyn today.

He disagreed with Commissioner Rockefeller's announcement, that his department was without authority to enforce wartime prohibition.

### MANY LOWELL PEOPLE GO TO DEVENS

Lowell people were abundantly represented at Camp Devens yesterday among the thousands of visitors who stormed the cantonment to be with the boys of the returned 26th Division.

Although a large number of the Lowell men had been granted passes to come home yesterday, there were many others who had previously had this pleasure and were obliged to stay in camp over the Sabbath. The result was an influx of Lowell relatives and friends that gave an even greater "Lowell touch" to the camp than was in evidence the preceding Sunday.

Battery F, Co. M., and other 101st units and the Lowell companies of the 104th Regiment all had their share of Lowell visitors and the various barracks of the Lowell men were well littered with paper and coverings from food that "mother had cooked" for the overseas man who is so near and yet so far from home.

The auto was the favorite mode of travel and from early forenoon until late in the afternoon the roads between here and Ayer were almost congested with machines.

The Lowell boys at the camp were looking forward to the big reception to be given them here next Saturday, Patriots' day and many were the questions they asked as to what the nature of their entertainment is to be.

An added attraction at the camp yesterday which proved a great aid to Lowell people as well as those from other places was the information bureau which has been opened by the state committee for welcoming home soldiers and sailors in the 101st Infantry area to the right of the main road. This bureau supplies information regarding the location of any unit of the 26th Division now at Camp Devens and assisted many people yesterday in locating the soldier boy they were looking for.

Here in Lowell it was really the first "overseas Sunday" that the city has enjoyed. Tanned men with three gold stripes on their left sleeve were everywhere in evidence, more so than at any other one time.

### BEEN ECONOMIZING IN CLOTHES?

Adopted the patriotic, economical idea last winter? Well, the war's over! It's time now that you got a new suit and a mighty good suit. That's the best economy. Cheap clothes don't pay.

As good clothes as you can afford will give you the most value for your money in faithful service as well as in the pleasure you will feel in being truly "dressed up." Get a new suit, a becoming suit, an extra fine suit. Merrimack suits are fresh, bright, up to the minute. You'll be exceedingly well dressed the moment you dress up in Merrimack clothes.

Dress up for Easter.

### SOLDIER CELEBRATION

Autos Wanted To Bring  
Soldiers From Camp Dev-  
ens on Patriots Day

Plans are progressing rapidly for the celebration for the Lowell men of the 26th Division to be held here next Saturday. Mayor Thompson held a conference with the theatre managers of the city at city hall today and they agreed to do whatever the mayor requested in the matter of entertaining the boys. Specific plans will be announced later in the week.

One of the ways in which the general public can assist the city officials in making the day a big one for the boys is to provide 100 automobiles to bring the 100 soldiers to Lowell that are now quartered with the Yankee Division at Lowell. People who have cars which they are willing to have drafted into service that day should call 225 and give their names, make of car, etc.

The celebration was eagerly outlined at the present time to be as follows: A fleet of machines will leave Lowell for Devens in time to bring back the soldiers to the South common by 11 o'clock at the latest. From 11 to 12 brief ceremonies will be held on the common, the only speech-making to be an address of welcome by Mayor Thompson. Then, Col. Charles A. Stivers will be in charge of all military arrangements both at the cantonment and on the common. A band concert will begin at 10 a. m. and continue until noon. The Red Cross will have a canteen tent on the common from which food will be served to any of the Y. M. C. A. men in hunger.

The rest of the day will be given over wholly to the men themselves to do what they please. Present plans call for arming them with theatre and restaurant tickets and more details will be available later in the week. Every effort will be made to have the affair as informal as possible.

### HINES ON INSPECTION TOUR

WASHINGTON, April 14.—Director General Hines plans to make an inspection tour through the west, leaving Washington tonight and visiting the Pacific coast before he returns in about two weeks.

### MAKING THE MERRIMACK RIVER NAVIGABLE

One more step in the long journey toward the consummation of the project for making the Merrimack river navigable from Lowell to the sea will be taken tomorrow morning, when a delegation from the legislative rivers and harbors committee will come here under the auspices of the board of trade and inspect Lowell, Lawrence, Haverhill and Newburyport.

The delegation will be met at the Middlesex street station and included in the committee of welcome will be Congressman John Jacob Rogers, who has been heartily interested in the project for some time. An effort will be made to point out the advantages which Lowell as a manufacturing city would derive if the Merrimack were made navigable.

The board of trade's committee on waterways has, in co-operation with the commercial organizations of other Merrimack valley cities, placed before the legislature once more the bill calling on the commonwealth for participation in the cost of the project, the state to pay half and the nation half for the development. At the best, the work of construction cannot start before 1921.

### REVIEWS AT DEVENS

Will Start Tomorrow—Hale  
Goes to Dix April 26—Of-  
ficial Visit From Edwards

AYER, April 14.—Major General Harry C. Hale of the 26th Division who has been assigned to command Camp Dix, announced today that he would leave for that camp April 25, the day after the parade of the division in Boston. The demobilization of the division will be completed by Brigadier General George H. Shelton.

Resuming tomorrow a unit of the Yankee Division will be reviewed at Camp Devens each afternoon until Saturday. The review of the 191st Engineers is set for tomorrow; that of the 191st Infantry Wednesday; 193rd Infantry Thursday and 102nd Infantry Friday. A concert of massed bands will be held on Saturday.

Major General Clarence R. Edwards of the Northeastern department paid an official visit to Major General Hale today.

Headquarters officers asked that the attention of the New England people who intend seeing the divisional parade in Boston be called to the need of keeping back of the military and police lines to prevent disaster to the parade.

### BOLSHEVIK PROPAGANDA BEHIND "MUTINY"

WASHINGTON, April 14.—Specimens of the bolshevik propaganda which is believed to have contributed to disaffection among the American soldiers in northern Russia were submitted to the war department today by military intelligence officers. They were leaflets taken from letters written by soldiers on the Archangel front to relatives and friends in this country.

The leaflets suggest that the American soldiers as "fellow workmen" should not be fighting against true liberty represented by the soviet government. They declare that the purpose of the allied expedition is to steal the great natural wealth of Russia, and that the soldiers have been taken through the intervention of the capitalist class in the United States which is working with the former rulers of Russia to restore czarism.

**Company Officials Appeal to "Loyalty of Employees"—Workers Plan To Place Pickets at Railroad Stations—Report Outside Help To Be Called**

BOSTON, April 14.—No definite progress toward a settlement of the wage controversy between the New England and Providence Telephone and Telegraph companies and their women operators was made today. Company officials and Miss Julia O'Connor, the union leader, agreed in declaring that a strike tomorrow appeared to be inevitable.

BOSTON, April 14.—Preparations for meeting the strike of telephone operators called for 7 o'clock tomorrow morning were continued today by officials of the New England Telephone & Telegraph Co. and the Providence Telephone Co. At the same time union leaders were perfecting their plans to

make the strike effective and for picketing activities. Notices signed by President Matt R. Jones of the telephone company calling upon the operators "in the name of your loyalty to the service and to our government" to remain at their posts of duty, appeared upon the bulletin boards in all the exchanges today. Reports that outside help might be called upon in an effort to maintain service, led the strike leaders, headed by Miss Julia S. O'Connor, to prepare to meet a possible move in this direction by stationing pickets at railroad terminals.

No new word had come from Postmaster General Burleson early today, according to union leaders and so far as was made known, no conferences

### "VICTORY FLEET" RETURNS HOME

Greatest Assemblage of War  
Craft Ever Seen in Ameri-  
can Port Now at New York

Will Give 30,000 Sailors  
and Marines a Vacation  
on Home Shores

NEW YORK, April 14.—The Atlantic fleet, comprising in ships and tonnage the greater part of the "Victory armada" ordered here to give 30,000 sailors and marines a vacation on home shores, steamed into New York harbor today. With its arrival the greatest assemblage of war craft ever seen in an American port—105 vessels—made at anchor in the North river, and almost immediately launched started shoreward with the first contingent of officers and men on leave.

Preceded by a flotilla of 50 destroyers, 11 superdestroyers entered the lower channel shortly before noon, the Massachusetts, Oklahoma and Wyoming leading, and close in their wake the Pennsylvania, flying the flag of Admiral Mayo, commander of the fleet and ranking officer of the units assembled here from two oceans.

As the fleet came into port, it was met by squadrons of naval airplanes, their wings flashing in the brilliant sunshine, their engines humming a musical greeting as they leaped and swooped above the slowly steaming war craft.

### SEARS OF U-BOAT ATTACKS

Crews of some of the destroyers had been in the way zone almost continuously since the first contingent of anti-submarine craft went abroad in the spring of 1917. Several of the destroyers have one or more submarines in their credit. One of them, the U.S.S. Cassin, bears the scars of an attack submarine and another, the U.S.S. Manly, still shows the effects of exploding depth bombs which went off when she collided with another boat in the war zone.

The destroyers included the McKean, McKee, Robinson, Parlati, Mahan, Harding, Taylor, Champlin, Chesapeake, Montgomery, Gamble, Bauson, Lamberton, Buchanan, Elliott, Penn, Waters, Ward, Muzford, Rush, Deane, Jenkins, Ammen, Keale, Burroughs, Terry, Pendergast, Thatcher, Walker, Crosby, Boggs, Brockenbrough, Bates, Bonham, Calhoun, Winslow, Ericsson, McQuigall, Cummings, Wainwright, Brown, Green, Stockton, Kearney and Dolphin.

Following the destroyers were the cruiser Columbia and the torpedo boat tender Melville.

### "WINN" LODGE SUIT SETTLED

BOSTON, April 14.—Notice was served on the clerk of the superior court today that the suit of Alexander Edmund Winn against Senator Henry Cabot Lodge for damages for an alleged assault at Washington on April 2, 1917, during a partisan demonstration against a declaration of war, had been settled. The case had been set down for trial today.

Many Pickets Out—5000 in  
Demonstration—Investiga-  
tion by State Board

LAWRENCE, Apr. 14.—Samuel Bramhall, chairman of the committee in charge of the textile strike here, was arrested today during a demonstration in the mill district, charged with interfering with a police officer. Members of the state board of conciliation and arbitration were to arrive during the forenoon to begin an investigation and the strikers made every effort to get a large number of pickets out as an indication of their strength. As a result, several thousand men and women walked up and down the streets displaying cards with the legend "18-18" indicative of their demand for 54 hours' pay for 48 hours' work.

Mrs. Glendower Evans of Brookline, a stockholder in the Arlington mills, who had previously shown her sympathy with the movement, mingled with the pickets today, wearing the strike card on her sleeve. A policeman in plain clothes was keeping close behind her as she walked up and down the sidewalk, and it is charged that Bramhall questioned his right to follow her. After some words, another officer arrested Bramhall.

Persons who witnessed the demonstration this morning estimated that between five and six thousand participated. Many, according to the police, were not mill workers and some, they said, were not residents of Lawrence. Today marked the opening of the 11th week of the strike. With one exception, all of the mills against which it is directed are operating although foremen are considerably reduced in some departments.

The investigation by the state board to determine the cause of the strike and the responsibility for its continuance was ordered by Governor Coolidge after the manufacturers had declined to submit the differences to arbitration. The strikers had announced their willingness to arbitrate and proposed Henry R. Endicott, formerly executive manager of the state public safety committee, as mediator.

In opening the hearing the board announced that members of the general strike committee would first be heard and some of the strikers' representatives of the committee might also be heard. Later it was planned to take the testimony of mill men. Several representatives of the manufacturers were among the 1200 persons who crowded into the city hall for the hearing.

## APPEAL FOR KOREA

800 Delegates in Convention  
at Philadelphia To Aid  
Independence Movement

PHILADELPHIA, April 14.—Eight hundred delegates, including several women, and representing the 3,000,000 Koreans outside Korea, assembled in congress here today. Their mission is to assist the independence movement in Korea and secure freedom from Japanese rule.

"The facts of Japanese oppression of Korea," said Dr. Shyngman Rhee, secretary of state of the Korean provisional government in Manchuria, who is a delegate to the congress, "are not known to the American people. America for her own sake, as well as for the sake of the peace of the world and the principle of justice to strong and weak alike, for which she fought the war, should know the kind of ally she has in Japan. The Korean congress will do a great service to America by publishing the truth about Japan, whose clever publicity bureau on which millions are spent a year, has camouflaged the imperialistic ambitions and underhand diplomacy employed by the 'Prussia of Asia'."

"We hope the American public will take advantage of these sessions to be present at our meetings. Eighteen million people of whom two million are Christian, including all the enlightened and influential among Koreans, aspire to establish a Christian democracy in Asia. American Christian missionaries have been our teachers, and some of them, unknown to the American public, are suffering jail with their flocks, whose sufferings can no longer be concealed. The struggle is on until Korea is free or the last Korean dead."

"Will America help us?"

## NEWS OF THE DAY IN POLICE COURT

Phileas F. St. Francis of Nashua, N. H., was arraigned in police court today on a complaint charging him with operating an automobile while under the influence of liquor, and on a second complaint of drunkenness. A continuance was granted until April 22.

Charles Kazekewicz was charged with assault and battery on his wife. He was found guilty and given a suspended sentence of a month in jail, from which he appealed.

Joseph S. Stowell was found guilty of non-support of his wife, and with the understanding that he will become a regular contributor through the probation officer to her support from now on, the case was placed on the files of the court.

Several offenders charged with drunkenness drew down small fines, and in some cases were given a few weeks in the house in which to rest up. The probation officer released 16 first offenders.

### SUPERIOR COURT.

The case of Julius Cahn of New York vs. Deputy Sheriff Bernard F. Gately of this city, an action of tort for the conversion of the Lowell Opera House property, through which Cahn seeks to recover \$10,000, was continued in the superior court, civil session, at the court house in Gorham street this morning. Mr. Cahn, Frank Groves, treasurer of the Washington Savings bank, and Erson B. Barlow, county commissioner, were called as witnesses this morning. The case will not go to the jury before Wednesday or Thursday.

## LOWELL SOLDIER DIES AT CAMP DEVENS

Priv. Joseph Blanchard, Jr., son of Mr. and Mrs. Joseph Blanchard, of 48 Hurd street, this city, died yesterday afternoon at the East hospital at Camp Devens as a result of pneumonia, which the young soldier contracted aboard the U.S.S. Agamemnon, a couple of days before the ship anchored at

PRIV. JOSEPH BLANCHARD, JR.

Boston. It was not believed the illness would prove serious at first, but owing to the soldier's weak condition, due to his previous service in the trenches of France, he was unable to combat the disease.

Mr. and Mrs. Blanchard, who only a short time ago received a card from their son, dated aboard the U.S.S. Agamemnon, to the effect that he was in the best of health and would be home soon, received a telegram from military authorities at Camp Devens Tuesday night, requesting them to go to Devens at once as their son was seriously ill. A couple of hours later the parents were at the bedside of their son and one of them remained constantly with the sick soldier until the end came yesterday.

Priv. Blanchard, who was but 19 years of age, was born at Burlington, Vt. At the age of 17 he enlisted with

the National Guard at Burlington and a short time later he joined the regular service. He received his first training at Fort Ethan Allen and Newport News, Va. and in October, 1917 he sailed for France with the Supply company of the 102d U. S. Infantry. While "over there" he took part with his regiment in many of the heroic battles, but was lucky enough to escape injury. A short time before the armistice was signed he was killed, and although it seemed that he had fully recovered from the poison, his system was left in a very weak condition. A few weeks ago his parents received a letter from their son, announcing them that he would soon sail for the states, and they looked forward with fond anticipation to his arrival.

Deceased was well liked in his regiment. He was ever ready to lend a helping hand and his knowledge of the French language proved a great benefit to his many friends and associates in the army. He was of a cheerful disposition and possessed of a pleasant character, which made him a favorite among his superior officers and mates. The news of his death will be a sad blow to all who knew him. Besides his father and mother, deceased is survived by a brother, George. The body will be brought to this city and will be buried with military honors.

### Insist on Guarantees

Continued  
Council of Four. It is expected that this will be the main subject before the council this week, with the French making a determined stand for guarantees which will give them adequate military security against renewed German aggression.

### Wilson to Go to Versailles

The summoning of the George Washington by President Wilson led to the belief that his departure was imminent, but intimate friends now say that the progress which has been realized will permit him to remain and take part in the congress at Versailles when German plenipotentiaries take part.

There appear to be strange and divergent views concerning the status of the amendments to the League of

Nations covenant. Leon Bourgeois, the French member of the commission on the League of Nations, took the view after Thursday's meeting that the Monroe Doctrine amendment had not been adopted, and the semi-official Temps stated last night that the American amendment incorporating the Monroe Doctrine into the covenant was further examined on Friday, but no decision has as yet been reached.

### Stormy Session on Monroe Doctrine

There is no doubt that the final session which discussed the Monroe Doctrine was at times stormy. French opposition to the Monroe Doctrine amendment was long and spirited and was based on the ground that it singled out one nation for special treatment and also that the principle of the Monroe Doctrine if applied to Europe, might keep the United States from again aiding France, if she were menaced by another German attack.

### Wilson Forced Decision

To President Wilson's physical endurance, despite his recent illness, is credited the getting of the league covenant through its final stages. When the debate dragged beyond midnight on Friday, Lord Robert Cecil asked Col. House: "How long is this going to last?" Col. House consulted Mr. Wilson and immediately replied: "It is going to last until daylight. If necessary, to adopt this covenant. When this became known, opposition subsided and the session was soon concluded. Col. House said afterward: "In a prolonged contest it is the last 15 minutes which count."

### FINAL STAGE OF NEGOTIATION

PARIS, Sunday, April 13 (By the Associated Press).—The peace treaty and the League of Nations have undoubtedly reached the final stage of nego-

tion, but it is not yet clear that they are out of troubled waters, as both must pass the ordeal of a plenary session of the peace conference and then go before the Versailles congress where enemy powers will be represented. Indications are that a combination of both documents will be written into a preliminary peace treaty within the coming two weeks. The Germans then will be called in and the present peace "conference" will be merged into the peace "congress."

The Council of Four is understood to have fixed for the peace congress tentative dates between April 26 and May 5, but no announcement has been made as to details so that Premier Lloyd George may have something to disclose when he addresses the British parliament next Wednesday.

### MAIN ITEMS OF PEACE SETTLED

LONDON, Sunday, April 13—(British wireless service).—The main items of peace with Germany have been substantially agreed upon by the Council of Four, the Paris correspondent of the Sunday Observer says. The only problem which the council has not yet approached is that of the Bohemian border, he says. This problem, he points out, is an intricate one, as it raises the question as to whether a considerable number of Germans must be included in the Czechoslovak state.

"As for the other points concerning the German borders," continues the correspondent, "it seems that it only remains now to decide upon some minor questions."

As for the Sarre valley, the correspondent says he understands that President Wilson has definitely agreed to the proposal originated by Premier Lloyd George which essentially con-

sists in giving France ownership of the coal mines while making the Sarre district a neutral state under the guarantee of the League of Nations. The questions of reparation and of disarmament in the Rhine region, he says, seem also to have been more or less settled in their broad outlines.

On the subject of the western border of Germany, the correspondent states he has it on good authority that Premier Clemenceau's main object has been from the first day of the conference to pave the way to a settlement that "should be entirely based on that idea of right which since 1870 has been embodied in Alsace-Lorraine," and that the settlement of the Czechoslovak question should be entirely acceptable to the English-speaking democracies.

### RELEASED FROM NAVY

Edward F. Woodward of this city, for the past 18 months an ensign in the U. S. navy, and for the greater part of the time engaged in cravvy service, has received his release from the navy and has returned to his home. He is connected with his father, Chas. N. Woodward, local manager for Bright, Sears Co.

### BOARD OF TRADE MEETINGS

Among the meetings scheduled for this week by the board of trade are the following: City beautiful committee, Monday, 8 p. m.; hardware dealers, Tuesday, 4:30 p. m.; Americanization meeting, high school hall, Thursday, 4:30 p. m.; address by Mary S. Morgan of Fall River. Everybody interested in Americanization is invited to attend this latter meeting.

## Workers and Strike Pickets Clash

NEW YORK, April 14.—Several hundred workers and strike pickets at the factory of the Fur Trading Co. in Brooklyn, engaged in a fight today in which a number of persons were injured and windows in the building broken before the rioters were dispersed by the police. The strikers quit work last week, after demanding higher wages and shorter hours.

## Ukrainians Bombard Lemberg

COPENHAGEN, April 14.—Ukrainian forces heavily bombarded Lemberg on Thursday and Friday, many persons being killed and wounded, according to a despatch received here.

## To Start Transatlantic Air Service

LONDON, April 14.—Vickers, Ltd., are about to start a transatlantic air service with airplanes which the company was building for the British navy when the armistice was signed and which are no longer needed, the Pall Mall Gazette says. The passenger rate will be £48 and mail will be carried at the rate of £405 a ton.

The pioneer ship will have a gas capacity of 1,200,000 cubic feet and engines of 1000 horse power. Larger ships are being built to carry 200 passengers.

## BELGIAN SOLDIERS HERE FOR LOAN PARADE

### A SURPRISE PARTY

Frank A. Brooks, recently discharged from the 30th Division, Old Hickory, was given a surprise party at the home of his parents, Mr. and Mrs. Fred Brooks, 870 Lakeview avenue, on Sat-

urday night. A gift of a gold watch and chain was given by his parents and friends. The evening was one of real pleasure, both for the returned soldier and his acquaintances. His two brothers, Joseph and James W. Brooks, are with U. S. forces in Panama.

### LOWELL'S MORTALITY RATE

Lowell was in second place among the large cities of the country in her mortality rate for the week ending April 5, according to figures received at the board of health office today. Fall River was in the lead with 42, Lowell, 21.5, Milwaukee, 22.7 and Worcester, 23.1. New Orleans was lowest with 2.1. The average was 12.2.

## Letters From Lowell Soldiers

Mr. and Mrs. Cornelius F. Calnan of 81 Forrest street have received the following interesting letter from their son, Charles T. Calnan, who is a listener on one of Uncle Sam's torpedo destroyers:

London, March 2, 1919.

Dear Mother: I am here in London. You know I wrote and told you about them asking for volunteers to take the German submarines over to the United States. Well, I with 100 others, gave in my name but only 19 were chosen. I thought I was lucky to get this

CHARLES T. CALNAN

chance to come home. We expect to reach New York April 21. I had quite a time in Ireland before I left. The Sunday before we left my mum and I got liberty to go to Cork and also Blarney where the famous Blarney stone is. We caught a train to Killybegs, then to the castle. I wish you could see the beautiful country around here. I have taken pictures of all these places with my green hills and sheep and cows grazing. We got to Blarney at 3 o'clock and went to the castle and kissed the stone. I never thought I would have the chance to kiss it. I tell you, we had to lie on our backs while two good husky Australian soldiers, who were in the same air as ourselves, held our feet while we kissed the stone.

## SUN BREVITIES

Best printing, Tobin's, Associate bldg. Fire and liability insurance, Daniel J. O'Brien, Wyman's Exchange. Sergt. Harold W. Dows of 167 Warwick street, after 10 months of overseas service with the 69th Engineers of the 7th division, has returned to New York as a casual and expects to be transferred to Camp Devens shortly.

Commissioner George E. Marchand of the public property department has named William H. Cox boss painter of the department following a civil service examination.

First Lieutenant Benjamin J. Maloney, discharging officer at Camp Merritt, N. J., has returned to his home in Lowell, and will soon take up his practice again as one of the members of the bar. Lieut. Maloney was in the service 18 months.

Two Lowell men were forwarded to Boston today by Chief Cary of the local naval recruiting station. They were Starr S. Morrill, 731 School street, apprentice seaman and George Jellison, 56 Kinsman street, apprentice seaman.

Joseph Gerand, who resides in Clark's yard off Davidson street, received compound fracture of the right leg this morning while at work.

## THOUSANDS OF GREEKS DIE OF STARVATION

WASHINGTON, April 14.—Thousands of Greeks deported from Macedonia during the Bulgarian occupation, have died from starvation and mistreatment and survivors are in a desperate condition from disease and lack of food, says a report received here by the American Red Cross from Athens.

"Survivors are arriving in droves at the American Red Cross relief stations," the report says, "after having been without food for days. Women walk into the stations with dead babies in their arms. Young girls driven insane by the treatment they have received and children who are but living skeletons are seen on every hand."

As an example of the "destruction" of the Greek population of Macedonia, the report states that of one group of 3000 men, women and children deported only 1775 were counted upon arrival at one of the relief stations.

Bulgarian Fire on Greeks. SALONIKI, Sunday, April 13.—Greeks engaged in demonstrations near the city of Strumitza have been fired upon by Bulgarian police, according to reports reaching this city. Many Greeks have been arrested and 20 have been sent in irons to Sofia, it is said.

the present season. The cost is to be 7.50 cents per gallon for 45 per cent. asphaltic and 5.25 cents per gallon for the 55 per cent. grade. Another firm has sent in a slightly lower bid on the contract, but owing to its failure to accompany the bid with specifications regarding delivery as favorable as those of the Standard Oil Co., the contract was given to the latter firm.

## Did You Ever Steal a Suit?

Yes, did you when you were young and you wanted to make an impression on the girls? William Selwyn Bayton was terribly in love with Lola Pratt. Bill was seventeen and suffered the overwhelming burden of self-imposed duty which is common at the advanced age of seventeen. Such, he was in love with Lola, whose rare charms laid in a velvet pair of eyes, baby talk and her pup Flippin. Well, Bill was nearly driven to suicide, but one of his discarded girls stepped into the breach, saved his life and a new love for the old love took place of the "last love." I'm mixed up myself, but never mind, see JACK PICKFORD in "EVELEIGH" and live over your youth, when romance pupped all your dreams. ## TRANSATLANTIC FLYERS ARE IMPATIENT

ST. JOHN'S N.F., April 14.—Harry G. Hawker and Lieut. Commander Greive, the Sopwith biplane team, went to the aerodrome today and in view of adverse conditions indicated that the start of the transatlantic flight for the next few hours at least, was doubtful. Although the rain had stopped, the ground was still soft and the hangars were enveloped in a dense fog. Both flyers expressed impatience at their enforced delay.

Meanwhile Capt. Raynham and Maj. Morgan, other contenders for the London Daily Mail's \$50,000 prize for an over-the-ocean flight, announced that they might make a trial trip tomorrow. All night long their mechanics had been working to assemble the Raynham plane.

If Hawker is delayed two days longer the prospect of a race between the rival pilots on even terms may become a reality.

CORP. LOWE HONORED Corp. George Lowe, recently returned from 18 months' service "over there," was the guest of honor at a reception given at the home of his sister, Mrs. George Hovey, 233 Appleton street, last evening. Corp. Lowe was a member of Co. M, 1st Infantry, and previous to going over there to his duties saw considerable service on the Mexican border. Although in action on several fronts he came back without a scratch, and in the best of condition. During the evening a pleasant informal program was given by some of his friends and acquaintances who had turned out to honor the returned soldier, and refreshments were served by the young women present. He was presented a handsome ring by his sister, Mrs. Archie Little and was given a watch by Mrs. Hovey. The entertainment consisted of the following numbers: Miss Bessie McManus, songs; Esther Crowley, piano selection; Mr. H. Williams, violin selection; Miss Morran, piano selection; and Corp. McCluskey, songs. Among the out of town guests present were Miss Jessie Neil and Miss Edna Clinton of Newburyport.

## FINAL WEEK OF POLO LEAGUE—GREAT RACE

This is the final week of the American Roller polo league, and next Saturday will mark the end of a very successful season, one of the best in the history of the great indoor game.

The race for the pennant has been very close and exciting, and with Salem and Lowell practically deadlocked for first place, possession of the lead, will probably be determined until the final games are played.

Lawrence and New Bedford finished their schedules on Saturday night, leaving four teams to fight it out.

Providence and Worcester, while out of the running for the flag, will play an important part in deciding the one to obtain possession of the emblem.

These teams will furnish the opposition to the contenders, and upon their ability against the rivals for the first place, depends the ultimate result.

Salem has a distinct advantage over Lowell in the final dash, as it has three home games scheduled, while Lowell has but two. Tonight, Worcester will play at Salem, while Lowell will clash with Barnie. Doherty's night Worcester will play at the local rink.

Providence has a home game with Lowell on Thursday night, while Lowell will entertain the Gold Bugs on Friday. Saturday, the final day of the race, will witness the teams playing two games each. Lowell plays at Salem in the afternoon and at Worcester in the evening. Salem will jump to Providence in the evening. It's a great old race.

This week's polo schedule is as follows:  
Monday—Worcester at Salem, Lowell at Providence.  
Tuesday—Worcester at Lowell.  
Wednesday—Providence at Worcester.  
Thursday—Providence at Salem.  
Friday—Providence at Lowell.  
Saturday (afternoon) Lowell at Salem; (evening) Lowell at Worcester, Salem at Providence.

The proposed transforming trip of the polo players is to be a two weeks' journey into the west. Many of the players who are going on the trip are those who live in that section and it may be that it is a "feeler" to see how the game would pay in the west. The trip is to be run by a western promoter, and it may very well see the east and the west battling again for the players—as of old. Frank Hardy, Quigley, Fahrner, Harold and Blount are likely to constitute one team, while Jean, Kid and Red Williams, Taylor, Griffith and Pence are being considered for the other.

## FIRST LADY SOCCER REFEREE

It has fallen to the lot of Joe Booth, the Connecticut live soccer wire to introduce to the soccer world the first lady referee. Joe Booth, who is secretary of the Bridgeport public school soccer league, is always on the lookout for someone to take charge of the game and ever in the season was introduced to Miss Helen Clark who during the summer months was in charge of the public play-grounds of the Bridgeport board of recreation, and as she was just finishing her duties for the summer months when the first school soccer game was being played on the Old Mill Green playground of Bridgeport where she was stationed at that time. Joe Booth, who had in her hands one of the Soccer Guides and for a job just asked her how she would like to take charge of some of the school games. He was greatly astonished when she stated that she was willing to give him a helping hand. She was pressed into service right away and during the season refereed over 20 of the school games of Bridgeport, the majority of which she played after school hours. In addition to officiating as a referee, she coached the Barnum schoolboys' team in the league and when she took hold of the team was in charge of the positions of the league through her careful tuition the team reached the second place in the league, and also won one of the knockout competitions started by the committee. She intends next season to take charge of some of the senior games of Bridgeport and if it is successful she will be a regular "queen of the whistle" and will become the first woman referee to be affiliated with the United States Soccer Federation.

Joe Booth also had a promise of a second woman referee to officiate in the schoolboys' games but the lady interested was preoccupied at the last moment from officiating and as it was only in the closing stages of the league that she was discovered it was impossible to bring her into use but it is a certainty that this second woman referee of this country will be introduced in Bridgeport during the spring games of the Bridgeport Public School Soccer League.

BOXING

PHINNEY BOYLE vs. BENNIE VALGAR

Crescent Rink, April 19

What should prove one of the greatest hours ever staged in this city has been arranged for next Saturday afternoon by the directors of the Crescent A.A. They have matched Phinney Boyle, the Lowell whirlwind and Bennie Valgar, the "French Flash" to appear in the main bout of 12 rounds. Boyle and Valgar are among the most prominent "little men" in this section and each is looked upon as a coming champion. Boyle has won six of his last six bouts, losing one on a questionable decision. In all he showed wonderful boxing ability and experts who have seen him in action over this he is a coming little brawler. Valgar, too, is rated high in the estimation of boxing authorities. His recent victory over Ralph Brady at Worcester gave him a great boost, and he will come to Lowell confident of adding another victory to his long list. Both men stated that they expect to be in great condition when the bell rings.

Frank Molinas of Lowell and Jack Mansfield of Lawrence have been signed up to appear in the semi-final. This match should prove a hummer. There will also be two good preliminaries.

Beginning today, members may secure reservations at the Crescent A.A. and despite the fact that this is a "big league" bout there will be no advance. The balcony seats are limited, but order of officials and those desiring to view the bout from that section must step lively.

The Boston Traveler says: "Valgar, being answered at St. Shubert of New Bedford for knowing the way recently to Pete Herman, one of the heavyweight champions, but who Shubert doesn't want the credit that he is and is being given him, the fact should not overlook the fact that there is a little fellow right in our midst who has something on the New Bedford boxer."

We refer to Chick Hayes of Indianapolis, the former radio school champion, who gave Shubert boxing lessons at Manchester, N. H., about a month ago.

Before the friends of Shubert crown him champion of the heavyweight class, they should insist that he wipe out the defeat that Hayes placed on his record by a referee's decision.

The bouts with Herman were both of the "no decision" variety, therefore the Whaling City boy has gained but little. Hayes, we understand, is ready to fight Herman and make any weight the champion stipulates.

## 150 TENNIS TOURNAMENTS SCHEDULED FOR 1919

The tennis schedule for 1919 shows 150 tournaments sanctioned by the United States National Lawn Tennis association, exclusive of the junior, boys' and girls' events which are listed separately. This number will be increased when some uncertain dates are fixed. Although there are fewer tournaments than in 1917, when the high-water mark was reached, the association's officials are gratified to see that the war's effect on tournament play was temporary, and that competition will be conducted on a broad scale.

Practically all the state championships that have been played in former years, however, certain events have not been scheduled as the dates are still under discussion. All the sectional doubles championships will be held, except the Pacific northwest, whose officers plan to devote most attention to the junior and international matches this season, and the Inter-Mountain. It is expected also that a number of tournaments held previously by clubs which were hard hit by the war, being dependent upon a "summer vacation" will be added as soon as these clubs have a chance to perfect organization and resume activities.

The first national championship will be played at the Philadelphia Cricket club on June 15th, this being the women's and girls' event. The Clay court championship comes next, on the 14th of July at the South Side club in Chicago. On August 12th the national doubles championship will begin at the Longwood Cricket club in Boston.

The singles championship, together with the finals in the junior and boys' championships, will be played at the West Side Tennis club, Forest Hills, L. I., beginning Aug. 25th. Other important events are the East-West team match at Chesham, July 10th, and the Intercollegiate championship at the Merion Cricket club in Philadelphia September 5th.

Resumption of general play by the colleges and the addition of a number of intercollegiate tournaments as part of junior schedule show the increasing interest among the younger players.

The Midlets of Concord street, advertising themselves as the "unconquerable," defeated the South Lowell Stars Saturday afternoon, 1 to 3. The Midlets are now ready to meet any team in the city, offering 15 year old challenges to Tom Joyce, 24 Pleasant street.

St. Peter's S.S. defeated the Unity A.A. Saturday in a nip and tuck game, 3 to 2. The winners challenge the Chestnut A.C. and the manager may be seen tonight at Union and Gorham streets at 7:30 o'clock.

The Blackberry All Stars fell before the South Lowell Stars Saturday night, 1 to 3. The latter club will take a chance with any 12 or 15-year-old team in the city. Send challenges through this paper.

The Tigers of Stanley street slaughtered the Lions of West street Saturday in the juncie off Lakeview avenue, the Tigers of the victors being heard for miles around.

The Bartlett A.C. never had a chance against the Pleasant Star Saturday and took the contest, 10 to 0.

The Superior A.C. has organized for the coming season, and will accept games with 12 or 15-year-old teams. The lineup includes: Joe Martin, Joe Moran, Edmund Ryan, Francis Elliot, P. Sutherland, Charles Smith, John Boynton, P. Monahan and W. Large.

The Universals defeated the Holy Cross club Saturday, 10 to 0, by the score of 9 to 1. The playing of A. Burrows and the pitching of Marshall featured for the winners, while for the losers it, Primville started.

## ARGENTINA RACE HORSE BRINGS \$200,000

Down in Argentina, where they have no income taxes to pay, Bolafogo, the fastest race horse ever bred in South America, recently changed owners for a consideration of \$200,000. The seller also has the privilege of breeding 10 mares to him. Only one horse ever sold for as much. Prince Polatino, winner of the St. Leger and other great racing events in England, selling for \$200,000 eight years ago.

Bolafogo is a four-year-old and his sire is the native-bred horse, Old Man, which has in more than one year led all imported sires in the Argentine as sire of winners. The dam of Bolafogo was the English-bred mare Korea, imported into the United States by John S. Sargent, a student of Kentucky and raced here as a two and three-year-old unsuccessfully. She was shipped to South America in 1916 and sold there with a foal for \$1200.

The new owner of Bolafogo, M. A. Martinez de Hoz, is the best-known and probably the most successful breeder of race horses, hackneys and short-horn cattle in South America. He twice won the championship of the London Hackney show with a horse of his own breeding, which he shipped from Argentina; he recently sold at auction the short-horn bull, Earl Hunter II for \$10,000 and when Guernsey was disqualified after finishing first in the Derby of 1915, he paid \$10,000 for that horse to head his stud. His money seems to be a habit with him.

Are Willing to Pay  
The South Americans have paid the top prices for horses during the last 20 years. In 1889 they established the record by paying the London Western \$8,500 for Ormonde, and in 1892 they sold the same horse to a California man for \$100,000. Other high priced horses that have come to the Argentine were Cyllen, \$175,500, and Diamond Jubilee, \$151,200. Of the nine horses that have sold for \$150,000 or more, Argentine breeders have bought five and sold two.

The highest priced horse sold in America was Rock Sand, an imported English horse, sold by his American owners for \$150,000 to go to France, in 1912. The highest priced horse of American breeding was the trotter, Arion, for which the late J. Malcolm Forbes paid \$125,000 to Senator Stanford of California. Arion was only two years old when this transaction occurred, but he had started the world by trotting a mile in 2:10 3/4 to a high-wheel sulky.

Army Horse Show  
The American Army of Occupation held a horse show March 7 and 8 at Neuquien, Germany, which brought into competition every type of horse in the army and the mule. The Red Cross donated the catalogue of 32 pages and the V.M.C.A. the cash prizes. Major Gen. John L. Hines of the 3d Corps stimulated interest and competition by awarding seven days' leave of absence to the winners. Those who finished second got five days' leave and the runners drew three days. Some of the classes drew as many as 40 entries or more.

The show was a great success, so much so that in general orders the commanding general expressed his gratification over "the splendid exhibition made by the divisions and the corps troops, showing the high standard for animals and animal transportation attained by this command."

Metropolitan Dinner  
The fourth monthly dinner of the Metropolitan Driving club will be next Wednesday at 6:30 p. m. and will be the last of the season. Important matters concerning the summer's racing program will be talked over, and "oomy" Murphy, of Poughkeepsie, Mrs. W. W. Simpson of Malten and L. H. Howard of the state house will be guests.

Syracuse has renewed the Empire State, for \$10,000, for 2,12 trotters. The 2,06 trotters and 2,10 pacers will race for \$2000 each, and the 2,06 pacers for \$2000. The 2,12 trotters the 2,20 3-year-olds and the 2-year-olds have an opportunity to engage in sweepstakes events, of \$37.50 each, with \$750 added to each entry by the association. With the wealth of 2 and 3-year-old material available this season, as indicated by the remarkable entries in such events at Cleveland and elsewhere, it seems too bad that the state of New York, as represented by the Syracuse state fair, could not have given more money for these events.

Meeting at Poughkeepsie  
There is no longer any doubt about a Grand Circuit meeting in Poughkeepsie, and the effort to remove the meeting to the Empire City track has failed, much to the satisfaction of the campaigning horsemen who had no desire to race their good trotters over that bad footing. It is a good thing in every way, for repeated failures of proven conclusively that New York will not support a trotting meeting at the Empire track.

The Hudson River Driving association is now entirely a Poughkeepsie project, with some of the most substantial citizens of the little city among its members. George E. Ruppert is president, Alfred T. Jenkins secretary and E. E. Perkins treasurer. All are members of the Poughkeepsie chamber of commerce, and that organization has voted its support to the racing association. A working fund, much smaller, to guarantee the purses, has been subscribed and paid in.

Directors were elected and an interesting report of the doings of the organization during the past year was read at the annual meeting of the Lowell Day Nursery association, which was held Saturday at the offices of the treasurer, James Gilbert Hill in the Sun building. During the meeting Franklin Nourse acted as president pro-tem, and Philip S. Madden as clerk.

The directors chosen were as follows: Term expiring April, 1920: Mrs. Julian Talbot, Philip S. Madden, Mrs. Joseph F. Talbot, Mrs. Helen M. Hill, Elmer L. Bowen. Term expiring 1921: Mrs. Mary G. Morrison, Mrs. L. E. MacBrayne, Mrs. W. F. Lawler, Stephen T. Whittier, Taylor A. Stevens. Term expiring 1922: Mrs. J. L. Chaffoux, Mrs. M. A. Plunkett, Jude G. Wadleigh, John L. Robertson, John H. Murphy.

J. Gilbert Hill was re-elected treasurer, while Daniel F. Carroll was chosen clerk. The position of president made vacant by the death of Dr. Moses C. Parker was not filled. The treasurer read an interesting report concerning the doings of the association during the past year. It was pointed out that the property secured in Palace street for a new nursery has not yet been reconstructed because of war conditions. The association, it was stated, is able for the time being to live with but little addition to its regular income. The total number of children cared for in 1918 was 13,548, a daily average of 37.

## News of the Churches

Local Catholic churches observed Palm Sunday yesterday with the usual services of blessing and distributing palm in commemoration of Christ's entry into Jerusalem and there were large congregations at the parish mass in the various churches when the palms were given out.

Members of the Holy Name society of St. Peter's, St. Columba's, St. Patrick's and the Sacred Heart churches received communion at early masses in their respective churches yesterday.

This week is Holy Week and will be observed with customary devotion and impressiveness. Wednesday and Saturday up to noon will be days of abstinence. Thursday will be Holy Thursday and one mass will be celebrated. Communion will be given at convenient hours for those who go to confession Wednesday afternoon or evening. The mass of the presanctified will be celebrated Friday and stations of the cross held at 3 o'clock in the afternoon. There will also be services Friday evening.

In many of the churches tenetbrae services will be held Thursday and Friday night. The usual custom of visiting churches will again be in vogue on Holy Thursday.

Easter, which comes next Sunday, will be observed with solemn and special musical programs.

## St. Patrick's

Members of the Holy Name society of St. Patrick's church received communion at the 7 o'clock mass yesterday. The pastor, Rev. William O'Brien, P.R., was the celebrant and Rev. Joseph A. Curran assisted in giving communion. Rev. James J. Kerrigan celebrated the late mass and Fr. Curran was the preacher. Masses on Thursday, Friday and Saturday will be at 8 o'clock, tenetbrae services will be held Thursday and Friday evening, stations of the cross at 3 o'clock Friday and blessing of holy water after the mass on Saturday.

## Immaculate Conception

Members of the Immaculate Conception sodality received communion in a body at the 8 o'clock mass at the Immaculate Conception church yesterday. Rev. Owen P. McQuaid, O.M.I., was the celebrant and the pastor, Rev. Lawrence F. Tighe, O.M.I., assisted in giving communion. Rev. James K. McCarthy, O.M.I., sang the parish mass and the pastor made the announcements. Communion will be given Thursday morning at 8:30 and 7 o'clock and mass will be at 9. Confessions will be heard Wednesday afternoon and evening. The mass on Friday will be at 8 o'clock and the Saturday mass at 7. Stations of the cross will be held Friday at 3 and tenetbrae services Thursday and Friday at 7:30 p. m.

## St. Michael's

Rev. Francis J. Mullin celebrated the parish mass at St. Michael's church yesterday and Rev. James F. Lynch was the preacher. Rev. John J. Shaw, the pastor, celebrated the 8 o'clock mass and members of the Immaculate Conception sodality received communion in a body. Rev. Fr. Lynch assisted in giving communion. Tenetbrae services will be held Thursday and Friday at 7:30 p. m. and the mass on Saturday will be at 8 o'clock. Stations of the cross on Friday will be at 3 o'clock.

## Sacred Heart

Rev. William Mahan, O.M.I., celebrated the high mass at the Sacred Heart church yesterday, and the pastor, Rev. John P. Flynn, O.M.I., preached the sermon. Members of the Holy Name society received communion at the 7:30 o'clock mass, and after mass the junior branch of the same society. Rev. Henry Burns, O.M.I., was the celebrant and the pastor assisted in giving communion. Communion will be given Thursday morning at 8, 6 and 7 o'clock. Mass will be celebrated on Thursday and Friday at 8 o'clock and on Saturday at 7. There will be services Thursday and Friday evenings at 7:30, and stations of the cross Friday afternoon at 3.

## St. Peter's

At the 7:30 o'clock mass at St. Peter's church yesterday more than 500 members of the Holy Name society received communion in a body. The pastor, Rev. Daniel J. Keleher, Ph.D., was the celebrant and Rev. Peter Linehan assisted in giving communion. Rev.

Daniel J. Heffernan celebrated the late mass and the pastor preached the sermon. It

was announced that a mass of thanksgiving for the men of the parish who have returned from the war and for the repose of the souls of those who have given up their lives will be celebrated some time in the near future, probably May 30. Communion will be given at 6 o'clock Thursday morning and mass will be celebrated at 8. The mass of the pre-sanctified will be at 8 o'clock Friday, and Saturday's mass at the same hour. Stations of the cross will be at 3 o'clock Friday afternoon, and services Wednesday and Friday evenings at 7:30.

## St. Columba's

Rev. Patrick J. Hally, the pastor, celebrated the high mass at St. Columba's church yesterday. At the 7:30 o'clock mass, celebrated by Rev. Francis McNeil, members of the Holy Name society received communion in a body. Rev. Thomas W. Buckley, formerly stationed at this church, will give a lecture on "The Life of Christ" at this church this evening. Masses will be said every morning this week at 7:30, and on Friday evening there will be services at 7:30.

## St. Margaret's

## St. Marie's

The week's mission at St. Marie's church for all the people of the parish closed yesterday. Rev. Fr. Villeneuve, O.M.I., was in charge of the service and throughout the week the mission was well attended. The pastor, Rev. Guillaume, O.M.I., assisted Fr. Villeneuve, O.M.I., and also celebrated the parish mass yesterday.

## Calvary Baptist

"Many Children or Few" was the subject discussed yesterday morning at the Calvary Baptist church by Dr. William Allan of Boston. In the evening he took for his topic "What is God Driving At?" Dr. Allan will conduct special evangelistic services every afternoon and evening throughout the week, Saturday excepted. At the morning service Dr. Allen spoke of the rapid increase of race suicides throughout the country, and said that there is no nation in the world where parenthood is held to cheaply as in America. The oft-repeated excuse that a man is not able to support a large family on a small salary is no excuse at all, as some of the largest families in the city will be found in homes where the man's wages are probably lower than the average. Woman's love of liberty and "a good time" is another reason for this condition, the speaker said.

## Fifth Street Baptist

"Welcomed as a Hero Only to be Cast Out as a Criminal" was the subject discussed at the Fifth Street Baptist church yesterday morning. Rev. G. B. Marston was the preacher. In the eve-

## HUN WAR PRISONERS IN SPARTACANS ROUTED BY AMERICAN ARMY? GOVERNMENT FORCES

WITH THE AMERICAN ARMY IN FRANCE, April 13.—(Correspondence of the Associated Press)—The immense amount of work in constructing roads, building barracks, unloading and reloading the vast tonnage of supplies for the American army gave several prisoners of war in the Breton area the idea that they were worthy of recognition in the service of the A. E. F., and a cordial having finished six months of good hard work, these boys concluded that they were eligible to wear a gold service stripe platoon in the lower part of the left sleeve.

It was wholly out of harmony with their general appearance, according to the sharp vision of the military police who had charge of their surveillance. The "M.P." could not understand this hybrid embellishment, coupled with the large letters "P.W." signifying "prisoner of war" on their backs. Fulfilling his duty, he inquired the purpose of this unauthorized dangle on the left sleeve. The boche explained his affiliation in the American army, but that did not satisfy the "M.P." Off as "employment Sunday." From thousands of palpus appeals will be made for aid in replacing men in industry.

## STOCK MARKET

NEW YORK, April 13.—Much of  
the strength shown by stocks at the  
opening today was attributed to the  
publication of the terms of the loan  
guaranteed by the United States  
government. The Associated Dry Goods  
Company, United Fruit Company,  
and the American International  
Company were among the leaders.  
The Associated Dry Goods Company  
advanced 1/4 point, United Fruit  
Company advanced 1/4 point, and  
the American International Company  
advanced 1/4 point.

Trading was in keeping with last  
week's rapid movement, but the  
advance was restricted mainly to oil  
stocks and miscellaneous shares. The  
oil stocks advanced 1/4 point, and  
miscellaneous shares advanced 1/4  
point. The Associated Dry Goods  
Company advanced 1/4 point, United  
Fruit Company advanced 1/4 point,  
and the American International  
Company advanced 1/4 point.

Shipping and food shares were  
the feature of the final hour, other  
quarters of the list showing further  
gains. The closing was strong.

## TELLS OF SLAUGHTER OF JEWS IN PINK

STOCKHOLM, April 13.—The Jewish  
press bureau here is informed that a  
letter written by Barnett Zuckerman,  
representative of the joint distribution  
committee of American funds for Jew-  
ish war sufferers, a branch of the Amer-  
ican Jewish relief commission, relat-  
ing to a slaughter of Jews in Pinsk,  
has been published in Jewish news-  
papers in Warsaw. The letter says that  
after Zuckerman had organized a  
Jewish committee for the distribution  
of provisions to destitute Jews through  
co-operative shops, a general confer-  
ence of the committee was arranged  
for April 5.

The meeting place was surrounded by  
Polish soldiers, he says, and all those  
present were arrested. Zuckerman  
was taken to the market place and shot.  
Zuckerman then wrote to members of the Polish  
diet demanding immediate interven-  
tion and the Polish cabinet promised to  
investigate.

Jewish newspapers in Warsaw, the  
press bureau says, published the names  
of 22 persons who were shot at Pinsk.  
Most of them belonged to the Zionist  
organization.

Thirty-three Polish soldiers were  
executed.

## ADMINISTRATOR FOR SOULIA'S ESTATE

William Brown, foreman of the  
reclamation plant at the Boston & Maine  
car shops in Billerica, was recently  
appointed administrator for the estate  
of Louis F. Soulia, who was brutally  
murdered near his home in Billerica  
last November. Mr. Brown has re-  
ceived authority to dispose of the real  
estate and personal property of the  
deceased and as soon as that is  
converted into cash, the amount will  
be turned over to Soulia's father, who  
resides in New York state.

OVERALLS AND JUMPER

Congressman Rogers To Assist in Digging For Construction of Memorial Park

READING, April 14.—Congressman John J. Rogers of Lowell has given his word to Attorney James W. Grimes of this town that on Community day, April 19, he will report in this town to the executive committee dressed in overalls and jumper and will aid in digging in the construction of Memorial park.

Merrick A. Stone, a resident who described himself as "72 years old and married," will personally plant two large trees in the park on Community day, in memory of two living soldiers who made a fine record in the war. They are Mr. Marion C. Stevens and Mr. Ethel E. Grant, two young dentists who held commissions as lieutenants in the Medical Corps. Mr. Stevens did service in France and is now in Serbia with the Serbian communists.

Henry C. Martin, a Boston tax and coffee merchant, has made a valuable contribution to Memorial park. He bought the west street nursery, which he will convert into a large

orchard, and he has contributed the more than 2000 shrubs and many ash, maple and catalpa trees on his place to the park. Skilled nursery men will remove these to Memorial park and transplant them under direction of landscape architect Warren H. Manning.

But the biggest and happiest surprise of all is being reserved by the executive committee. A big border of light gray sand stone or mica schist has been found in the park. It is a monster and at present stands four feet above the earth. This stone is going to be polished and set in the park and upon its face will be cut in lasting letters the names and records of the Reading boys who made the supreme sacrifice in the war.

This lasting monument will stand at the head of an avenue of heroes, at either side of which will be planted the rows of beautiful shade trees, each one in memory of one of the Reading boys who died in the war. The whole will be dedicated with fitting ceremony on April 19.

Another surprise innovation at the park is the proposed amphitheatre. At the far side of the U-acre park plot is an immense gravel pit. At this place the workers will excavate and construct a big outdoor stadium. The walls will be banked and seeded. Provision will be made for the construction of a large portable stage, where outdoor pageant and theatrical productions may be put on. The spectators may seat themselves on the surrounding banks and watch the shows which will be given there.

ROBS WASH DAY of Its Terrors

Why not rob your wash day of all its terrors by getting a Thor Electric Washing Machine right away.

No more back-aching drudgery—no more turning of a wringer till your arms ache—None of that rub, rub, rub that wears out both your strength and your clothes.

BULLETIN

League of Nations

April 14, 1919.

Although we want to see "the Kaiser get his" and the Germans who prepared for this war for so many years, punished and made to begin on paying for it for so many years.

What we want to see more than this is the League of Nations, to prevent not only Germany, but any other nation or group of nations preparing and making war again.

The League of Nations is more important and more immediately necessary than the punishment of Germany, but that must not be magnanimously handled—"The punishment should fit the crime." The remedy must suit the plague.

"Prevention is better than cure," and while administering the medicine which the patient must take, it is our more important duty to regulate the future of those who from contagion or fear of the plague, might break out with it again.

What is an infectious plague. You never know when or where it will break out. It must be stamped out. We have got it under in one quarter and the infecting process is going on, but the infection has spread and may need severe treatment, as the inflammation is affecting the whole world.

There is one serum for this plague and that is the League of Nations and the sooner we bring them all under the sooner the plague will be stamped out, then the reconstruction, the rehabilitation and doctors' bills must be attended to, if such plagues are to be avoided and the League of Nations, is to be respected.

Copies of the Constitution of the League of Nations, the joint debate between Senator Lodge and Frank Lowell, other League of Nations literature and buttons may be obtained free of charge at War Work Headquarters.

WOULD EXCLUDE ALL BUT ENGLISH LANGUAGE

WASHINGTON, April 14.—Exclusion of all modern languages excepting English from the public schools as the most essential element in the development of the American consciousness was urged by Mrs. George Thacher Guernsey, president-general of the Daughters of the American Revolution, in an address today at the opening of the 28th annual congress.

"It has been demonstrated," she declared, "that one of the greatest barriers to patriotism is a foreign language. This war has taught us that supreme mistake in all of our educational methods has been right here. We might as well try to grow roses in the Arctic to develop an American consciousness while speaking a foreign language."

"What kind of an American consciousness can you grow in the atmosphere of sauerkraut and Limburger cheese?" she asked, "or what can you expect of the Americanism of the man whose breath always reeks of garlic?"

To make every dweller in this country "the proud possessor of an American soul," Mrs. Guernsey said she would send Minnesota Scandinavians to the south, scatter thousands of Wisconsin Germans through New England and compel hundreds of thousands of Jews in New York to seek homes in the far west. This, she declared, was because American neighbors were needed by everyone of foreign birth or ancestry.

**BRAZILIAN ELECTION**

RIO JANEIRO, Sunday, April 23.—Scattering results on today's presidential election gave a majority to Dr. Epitacio Pessoa, chairman of the Brazilian delegation to the peace conference. Dr. Pessoa is opposed by Dr. Ray Barbosa, formerly ambassador to Argentina. Because of difficulties of communication with the interior, the definite result may not be known in two or three weeks.
